PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided 1st and 2nd level technical support to end-users across the firm, resolving approximately **15-20 user queries daily** via ticketing system and direct communication.
- Managed IT support tickets from logging through resolution, ensuring adherence to defined **Service Level Agreements (SLAs)** for response and resolution times.
- Assisted senior IT team members with system-wide tasks, including **PC and laptop setup** for new joiners and office relocations.
- Troubleshot and resolved hardware issues on **PCs, laptops, and printers**, performing component-level diagnostics and replacements.
- Configured and supported general business applications, including **document management systems**, Citrix environments, and email clients.
- Monitored the IT environment using real-time reporting tools, contributing to the proactive identification and resolution of potential issues.
- Participated in IT projects alongside the senior IT team, focusing on system upgrades and the implementation of new user support processes.

SKILLS

Helpdesk & Support – Ticketing Systems, SLA Management, Incident Response, User Support, Troubleshooting, Escalation Procedures

Operating Systems – Microsoft Windows 11, Linux (Shell Scripting, Log Analysis)

Hardware Support – PCs, Laptops, Printers, Audio-Visual Equipment

Software & Applications – Microsoft Office Suite, Citrix, Document Management Systems (e.g. iManage), Email Clients (e.g. Exchange)

Networking – Networking Fundamentals, Audio/Video Conferencing Support

Cloud & Virtualisation – Azure, Virtualisation Concepts, Windows Server (2016, 2019, 2025)

PROJECTS

End-User Support & System Deployment

- Managed the setup and configuration of **50+ new employee workstations** (PCs and laptops) with pre-imaged operating systems and standard software packages.
- Provided direct end-user support for **Windows 11 and Microsoft Office Suite** issues, resolving an average of 18 tickets per day within SLA targets.
- Documented common troubleshooting steps for recurring hardware and software issues, contributing to an internal knowledge base that reduced average resolution time by **10%**.

IT Environment Monitoring & Automation

- Configured and maintained monitoring dashboards using **Splunk and CloudWatch** to track system health and application performance for enterprise systems.
- Developed **Python scripts** to automate routine IT tasks, including log analysis and report generation, saving approximately **5 hours of manual work** per week for the operations team.
- Participated in change management processes for system updates, coordinating User Acceptance Testing (UAT) for software deployments across interconnected business systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
