HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Investigated and resolved complex customer technical issues spanning cloud infrastructure, workload protection, and vulnerability management across **AWS**, **Azure**, and **GCP** environments.
- Troubleshot cloud connector and integration failures, including **IAM/permissions** issues and **API authentication** problems, for SaaS platforms.
- Analyzed vulnerability findings, triaged false positives, and validated detection accuracy for **SBOM/SCA** results and secret detection.
- Designed and implemented automation scripts in **Python** to improve triage accuracy and resolution efficiency for support workflows.
- Supported shift-left security initiatives by troubleshooting **CI/CD scanning**, **IaC security**, and **Kubernetes connectors**.
- Participated in an on-call rotation, providing after-hours support and incident response for critical customer issues.
- Developed and maintained **Linux shell scripts** for log analysis and system monitoring, improving diagnostic capabilities for production environments.

SKILLS

Cloud Platforms – AWS, Azure, GCP, IAM, VPC, Security Groups, Core Compute, Storage Services

Containerization & Orchestration – Kubernetes, Docker

Programming & Scripting – Python, Shell, JavaScript, JSON, Java, Go, Terraform, HCL

Security Concepts – Cloud Security Fundamentals, Identity and Access Management, Network Segmentation, Compliance Frameworks (CIS, NIST, SOC2, PCI-DSS, HIPAA), Security Posture Assessment, Vulnerability Management, SBOM/SCA Analysis, CVE Triage, Threat Detection, Runtime Security, SIEM/SOAR Integrations

AI & Automation – AI Landscape, LLM Architectures, AI-Driven Tooling, Agentic Workflows, RAG Architectures, AI-Powered Automation

Infrastructure & CI/CD – Infrastructure-as-Code, Terraform, CloudFormation, Helm, CI/CD Pipelines

APIs & Debugging – REST API Debugging, GraphQL Debugging, Integration

PROJECTS

Cloud Security Posture Enhancement

- Developed Python scripts to automate the analysis of cloud security posture reports across **AWS** and **Azure**, identifying misconfigurations and compliance deviations.
- Implemented automated checks for **IAM policies** and **network segmentation** rules, reducing manual review time by 30% for security audits.
- Containerized security analysis tools using **Docker** and integrated them into a **Jenkins CI/CD pipeline** for consistent deployment.

Kubernetes Security Monitoring Automation

- Built automated tooling to monitor **Kubernetes** clusters for security vulnerabilities and misconfigurations, integrating with **Prometheus** for metric collection.
- Developed scripts to parse and triage security alerts from container runtime security tools, flagging potential threats for investigation.
- Configured **Helm charts** for deployment of monitoring agents across multiple Kubernetes environments, ensuring consistent security coverage.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
