## PROFESSIONAL EXPERIENCE — 3.5 YEARS

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal microservices, handling approximately 4,000 requests per minute during peak hours.
- Implemented data persistence layers using **Hibernate** and **JPA** with **PostgreSQL**, ensuring data integrity for core financial transaction records.
- Designed and implemented object-oriented solutions in **Java**, adhering to design patterns and achieving **90%** code coverage with **JUnit** and **Mockito** tests.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring adherence to strict **SLA** targets across multiple services.
- Automated data extraction and reporting tasks using **Python** scripts, reducing manual effort for the operations team by an estimated **15 hours** per week.
- Authored technical documentation and runbooks for critical production systems, facilitating smoother incident response and knowledge transfer for the support team.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time by **30%**.

## SKILLS

**Backend Development** – Java, Spring Boot, Hibernate, JPA, REST APIs, Microservices, JUnit, Mockito

**Data Management** – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, Data Modelling

**Scripting & Automation** – Python, Shell Scripting

**Cloud & Containerization** – AWS (EC2, S3, Lambda, CloudWatch), Docker

**DevOps & CI/CD** – Jenkins, Git, Code Reviews

**Observability & Support** – Splunk, Dynatrace, Jira, Confluence, Incident Response, SLA Management

## PROJECTS

### Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by building new **Java Spring Boot** microservices to process and display real-time transaction status updates.
- Developed automated **Python** scripts to ingest and transform operational data from disparate sources, feeding into the dashboard's reconciliation workflows.
- Integrated **PostgreSQL** database changes to support new transaction monitoring features, ensuring data consistency across the financial services platform.

### Enterprise System Integration Layer (HCL Technologies)

- Designed and implemented a **Java**-based integration layer connecting an ERP system with internal banking platforms using **REST APIs**.
- Managed change control processes for system configuration updates and coordinated UAT for cross-system integrations, impacting an **8-person** integration team.
- Provided post-go-live support for critical business system integrations, troubleshooting data flow issues between **Oracle** and **PostgreSQL** databases.

## EDUCATION

**M.Sc. Data Analytics** — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science** — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
