

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Android applications** using **Kotlin** and **Java**, focusing on clean, efficient, and well-documented code across the full application lifecycle.
- Collaborated with product managers, designers, backend engineers, and QA specialists to integrate new features and enhance user experience in high-performance mobile applications.
- Wrote and executed comprehensive **unit and UI tests**, identifying, debugging, and resolving application issues to ensure stability and optimal performance.
- Monitored application health using **Crashlytics** and **ANR reports**, proactively identifying and addressing technical challenges to maintain application stability.
- Implemented **product analytics and event tracking**, supporting feature rollouts and A/B testing initiatives to measure and improve product performance.
- Maintained and improved legacy applications while identifying opportunities to introduce new features and development best practices, enhancing overall application quality.
- Containerized backend services with **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits for predictable rollout and scaling.

SKILLS

Mobile Development – Android, Kotlin, Java, Android SDK, Unit Testing, UI Testing, Crashlytics, ANR Reporting, Firebase Analytics

Backend Development – Java, Spring Boot, REST APIs, Microservices, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Data & Analytics – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, SQL

Methodologies – Agile, Scrum, Jira, Confluence

PROJECTS

Android Feature Development for Global User Base

- Designed and implemented new user-facing features for a mobile application serving millions of users worldwide, utilizing **Kotlin** and modern Android architecture patterns.
- Integrated third-party SDKs and **REST APIs** to extend application functionality, ensuring seamless communication with backend services and external platforms.
- Participated in code reviews and sprint planning, contributing to technical estimations and ensuring adherence to development best practices for a collaborative international engineering team.

Mobile Application Observability and Performance Enhancement

- Enhanced application stability by implementing robust **Crashlytics** and **ANR reporting**, reducing critical incidents by approximately 30% over a six-month period.
- Developed and integrated **event tracking** using Firebase Analytics to provide insights into user behavior, supporting data-driven decisions for feature prioritization and optimization.
- Containerized a supporting backend service using **Docker**, improving deployment consistency and enabling efficient scaling on **AWS Lambda** for event processing.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
