

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **scalable data acquisition and integration solutions** using **PySpark** on AWS EMR, processing approximately 500 GB of HR data daily.
- Developed **ETL processes** with **AWS Glue** and **Python** to extract, transform, and distribute data from various file storage formats including **Parquet** and **ORC**, supporting business intelligence integration efforts.
- Managed **data integration and analysis** across diverse systems, ensuring data quality and consistency for downstream reporting and analytics on an **enterprise data warehouse**.
- Collaborated with **cross-functional teams** and **remote, geographically distributed teams** to define requirements and deliver consumable data products, ensuring alignment with client needs.
- Provided technical expertise in **complex data analysis** for **business intelligence integration**, troubleshooting data discrepancies and optimizing query performance for analytical workloads.
- Containerized data pipeline components using **Docker** and deployed them to **AWS Lambda**, enabling event-driven processing and reducing execution time by **30%**.
- Contributed to **CI/CD pipelines** using **Jenkins**, **Git**, and **YAML** for automated testing and deployment of data integration solutions to cloud environments.

SKILLS

Big Data Technologies – AWS EMR, Databricks, Apache Airflow, Spark, PySpark, Scala, Athena, RDS

Cloud Platforms & Services – AWS (S3, Glue, Lambda, EC2, CloudWatch), Infrastructure as Code (Terraform, CloudFormation)

Data Warehousing & Data Modeling – Data Warehousing, Data Modeling, Data Lake, Delta Lake, Iceberg, Relational Databases (Oracle, MySQL, PostgreSQL)

CI/CD & DevOps – Jenkins, Git, Artifactory, YAML, Docker, Maven

Programming Languages & APIs – Java, Python, SQL, REST APIs

Data Formats & Security – Parquet, ORC, Avro, Delta Lake, Iceberg, Data Security

AI-Assisted Development – GitHub Copilot

PROJECTS

Enterprise HR Data Integration Platform

- Engineered a data pipeline using **PySpark** on **AWS EMR** to ingest and transform employee data from multiple HR systems, processing over 1TB of data over six months.
- Implemented data quality checks and transformations using **Python** and **AWS Glue**, ensuring data accuracy for downstream HR analytics and reporting dashboards.
- Integrated the platform with **Terraform** for infrastructure provisioning and managed the deployment lifecycle using **Jenkins** for automated builds and tests.

Scalable Data Lake for Analytics

- Built a data lake on **AWS S3**, structuring data using **Delta Lake** format to support efficient querying and analysis of diverse datasets.
- Developed **Python** scripts for data ingestion from various sources, including batch processing of **Parquet** files and real-time streaming into the data lake.
- Designed and implemented **data modeling** strategies within the data lake to optimize performance for analytical queries executed via **Athena**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
