

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collected, cleaned, and analyzed data from multiple sources, generating **daily, weekly, and monthly reports** for management review.
- Created interactive **Power BI dashboards** and reports, including complex **DAX measures** and data models, to visualize key performance indicators.
- Performed rigorous **data validation** and quality checks to ensure **data accuracy and integrity** across datasets, identifying and resolving discrepancies.
- Wrote and optimized complex **SQL queries** to extract, transform, and manipulate data from relational databases for analysis and reporting.
- Identified key business trends and patterns from analytical findings, translating them into actionable insights and recommendations for stakeholders.
- Supported **cross-functional teams**, including business analysts and operations, by providing ad hoc data analysis and insights to meet urgent requests.
- Developed **Python scripts** for automating data collection and initial cleaning processes, improving efficiency by an estimated **20%**.

SKILLS

Reporting Tools – Power BI, Tableau, Excel

Data Analysis – Trend Identification, Pattern Recognition, KPI Monitoring, Business Insights, Statistical Analysis

Data Management – Data Cleaning, Data Validation, Data Integrity, Data Extraction, Data Manipulation

Programming Languages – SQL, Python, R

Core Skills – Problem-Solving, Analytical Skills, Communication, Presentation Skills, Attention to Detail, Meeting Deadlines

Microsoft Excel – Pivot Tables, VLOOKUP, XLOOKUP, Power Query

PROJECTS

MSc Data Analytics Capstone Project: Customer Churn Prediction

- Developed a comprehensive dataset by merging transactional and demographic data, performing extensive cleaning and feature engineering using **Python (pandas, NumPy)** and **SQL**.
- Built and evaluated multiple machine learning models, including **logistic regression** and **random forests**, to predict customer churn, achieving a **78% prediction accuracy** on held-out test data.
- Presented findings and visualized key churn drivers through interactive **Power BI dashboards**, enabling the business team to target retention efforts more effectively.

Financial Services Dashboard Enhancement (HCL Technologies)

- Engineered automated **Python scripts** to aggregate and process transaction data from multiple sources for the payments operations dashboard, reducing manual effort by approximately **30%**.
- Wrote complex **SQL queries** against PostgreSQL and Oracle databases to validate transaction flows and support reconciliation workflows for financial operations.
- Collaborated with business analysts to refine data presentation, contributing to the design of operational alerting mechanisms within the dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
