

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for core business functions, processing approximately **1,500 requests per minute**.
- Engineered **Hibernate/JPA** persistence layers for enterprise applications, optimizing complex queries and managing database schema evolution across PostgreSQL and Oracle instances, reducing data retrieval times by **18%**.
- Designed and implemented **JUnit** and **Mockito** test suites for critical Java components, achieving over **90% code coverage** and significantly reducing regression defects.
- Automated ETL processes and scheduled reporting tasks using **Python scripting**, handling data extraction, transformation, and loading for the financial-services operations dashboard, processing up to **50GB of data daily**.
- Managed production support for enterprise applications on **AWS** (EC2, S3, Lambda), focusing on **incident response** and SLA adherence, contributing to a **95%** first-call resolution rate for P1/P2 incidents.
- Containerized Java applications using **Docker** and managed deployments via **Jenkins** CI/CD pipelines, enabling more frequent and reliable releases to the production environment.
- Collaborated with cross-functional teams to gather requirements for enhancements to the enterprise business systems, coordinating UAT and providing post-go-live support for system integrations.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

BI/Analytics – Power BI, Tableau, DAX, Power Query, RStudio

Tools/Methodologies – Jira, Confluence, Agile, Scrum, Linux, Shell Scripting, Splunk, Dynatrace

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Developed new Java Spring Boot microservices to ingest and process transaction data for a financial-services operations dashboard, handling approximately **3,200 failed payment messages per week**.
- Implemented real-time monitoring and alerting mechanisms using Splunk and Dynatrace, reducing P1 incident response time by **22%** for critical payment flow issues.
- Integrated new reconciliation workflows into the dashboard using Python scripts, improving data accuracy for financial reporting by an estimated **15%**.

Customer Data Analytics Platform (MSc Project)

- Designed and built interactive **Power BI** dashboards to visualize customer behaviour and sales trends for a retail dataset of over **100,000 records**.
- Applied **DAX** measures and Power Query for ETL to model relational data, providing business stakeholders with actionable insights into purchasing patterns.
- Conducted exploratory data analysis using R to identify key drivers of customer retention, presenting findings to academic supervisors.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
