+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Canvas Apps** and **Model-Driven Apps** within the Microsoft Power Platform to automate core manufacturing workflows, reducing manual data entry by an estimated **30%**.
- Engineered **Power Automate flows** to integrate **Dataverse** and **SharePoint Online**, streamlining inter-departmental approvals and document management processes.
- Collaborated with business stakeholders across manufacturing, logistics, and finance departments to gather requirements and translate them into scalable Power Platform solutions, including the design of a new inventory tracking application.
- Supported junior developers by conducting code reviews, providing technical guidance on **Power Apps** and **Power Automate** best practices, and contributing to the team's technical documentation standards.
- Developed **API integrations** to connect Power Platform solutions with existing enterprise systems, enabling seamless data exchange for enhanced operational visibility.
- Managed the deployment of Power Platform solutions using **CI/CD pipelines**, ensuring version control, testing, and smooth transitions into production environments.
- Containerized core application components using **Docker**, facilitating consistent deployment across development, testing, and production environments on **AWS**.

SKILLS

Microsoft Power Platform – Power Apps, Power Automate, Dataverse, Copilot Studio

Microsoft Ecosystem – SharePoint Online, Microsoft Teams, Azure, Microsoft 365

Development & Integration – APIs, REST APIs, CI/CD pipelines, Docker, AWS

Data & Analytics – Power BI, DAX, Power Query

Methodologies & Tools – Software Development Lifecycle (SDLC), Agile, Scrum, Jira, Confluence, Git

PROJECTS

Manufacturing Operations Dashboard Enhancement (HCL Technologies)

- Developed and enhanced **Power BI dashboards** to provide real-time insights into production line efficiency and material flow for a global manufacturing client.
- Implemented automated data refresh schedules using **Power Query** and integrated data from disparate sources, ensuring timely and accurate reporting for management stakeholders.
- Collaborated with operations teams to refine key performance indicators (KPIs) displayed on the dashboard, improving visibility into critical production metrics by approximately **20%**.

Automated Purchase Order Approval System (HCL Technologies)

- Designed and built a **Power Automate** workflow to digitize and automate the purchase order approval process, integrating with **SharePoint Online** for document management.
- Created a **Canvas App** interface for requesters and approvers, enabling submission and review of purchase orders, reducing average approval cycle time by **35%**.
- Configured security roles and permissions within **Dataverse** to ensure appropriate access control for sensitive financial data throughout the approval chain.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
