HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Kubernetes** cluster configurations and YAML manifests for deploying microservices, managing resource allocation and scaling policies.
- Developed **Terraform** modules to provision and manage cloud infrastructure resources (AWS EC2, S3, VPC), ensuring consistent and repeatable environment deployments.
- Automated infrastructure deployment and configuration management using **Jenkins** pipelines integrated with **GitHub Actions**, reducing manual deployment time by **40%**.
- Managed and maintained **Linux** server environments, including system updates, security patching, and performance monitoring, ensuring high availability for platform services.
- Wrote and maintained **Python** scripts for automating operational tasks, data validation, and generating scheduled reports for system health metrics.
- Implemented infrastructure-as-code principles using **Terraform** to define and manage cloud resources, supporting **CI/CD optimisation** efforts.
- Containerised multiple applications using **Docker**, creating efficient and portable images for deployment across development, staging, and production environments.

SKILLS

Container Orchestration – Kubernetes, Docker

Infrastructure as Code – Terraform

CI/CD – Jenkins, GitHub Actions

Cloud Platforms – AWS (EC2, S3, VPC, Lambda, CloudWatch)

Scripting & Automation – Python, Bash

Operating Systems – Linux

PROJECTS

Cloud Infrastructure Automation with Terraform

- Developed a suite of reusable **Terraform** modules to provision core AWS infrastructure, including VPCs, subnets, security groups, and EC2 instances, for a new development environment.
- Integrated **Terraform** deployments into a **Jenkins** CI/CD pipeline to automate the creation and updates of infrastructure, enabling faster environment spin-ups for development teams.
- Implemented state locking and remote backends for **Terraform** to support concurrent infrastructure management by multiple engineers, reducing conflicts and ensuring consistency.

Kubernetes Cluster Deployment and Management

- Deployed and configured a **Kubernetes** cluster on AWS EKS, managing worker nodes, networking plugins, and ingress controllers for hosting containerized applications.
- Created **Kubernetes** deployment manifests and Helm charts to manage application lifecycles, including rolling updates, rollbacks, and resource scaling.
- Established monitoring and logging for the **Kubernetes** cluster using Prometheus and Grafana, providing visibility into cluster health and application performance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
