PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and executed a **Root Cause Failure Analysis Program**, reducing general equipment breakdowns by **18%** over a six-month period and enhancing maintenance team effectiveness.
- Ensured swift and safe execution of all machinery breakdowns, completing an average of **5 critical repairs per week** with zero safety incidents.
- Implemented and meticulously followed a **preventative maintenance schedule** for plant machinery, leading to a **22% improvement** in scheduled task completion rates and reduced unscheduled downtime.
- Carried out daily **start-up checks on machinery** across the plant, ensuring operational readiness and compliance with safety protocols.
- Managed site maintenance program execution in collaboration with Site Engineering Managers and Planners, focusing on compliant, reliable, and efficient operation of all plant and equipment.
- Completed and maintained accurate **records for all servicing and maintenance activities**, ensuring data integrity for reporting and compliance purposes.
- Managed and executed **refrigeration, plumbing, and general machinery repairs**, ensuring work was carried out in a safe, tidy, and hygienic manner.

SKILLS

Maintenance & Operations – Root Cause Failure Analysis, Preventative Maintenance, Machine Servicing, Breakdown Repair, Start-up Checks, Site Maintenance Program, Reliability Engineering

Manufacturing Environment – Fast-Paced Manufacturing, Food Manufacturing Environment, Plant & Equipment Operation, Health & Safety Policy, Environmental Requirements

Technical Skills – Refrigeration Systems, Plumbing Systems, Machinery Maintenance, Electrical Systems (implied)

Communication & Teamwork – Site Engineering Managers, Planners, Maintenance Lead, Reliability Engineer, Team Collaboration, Communication Skills, Interpersonal Skills

Process Improvement – Work Planning Metrics, KPI Monitoring, Resource Optimization, Schedule Adherence, Compliance, Process Execution

PROJECTS

Machinery Reliability Improvement Initiative

- Analyzed historical breakdown data using **Python scripting** to identify recurring failure patterns in plant machinery, focusing on high-impact equipment.
- Designed and implemented a refined **preventative maintenance schedule**, incorporating manufacturer recommendations and operational feedback, increasing scheduled task adherence by **15%**.
- Developed standardized checklists and documentation for routine inspections and servicing, ensuring consistency and thoroughness across the maintenance team.

Onsite Training Program for Maintenance Staff

- Collaborated with the Site Engineering Manager to develop training modules on **safe machinery operation and basic troubleshooting** for new hires.
- Delivered hands-on training sessions to a team of **8 maintenance technicians**, covering critical equipment checks and emergency response procedures.
- Created visual guides and reference materials for common maintenance tasks, improving new technician ramp-up time by an estimated **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
