## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Engineered and maintained **secure, scalable CI/CD pipelines** using **Azure DevOps** and **GitLab CI**, reducing deployment lead time by **30%**.
- Managed cloud-native infrastructure on **AWS** using **Terraform**, ensuring environments were provisioned consistently and adhered to organizational standards.
- Deployed and operated **containerized workloads** on **Kubernetes (EKS)**, implementing monitoring, logging, and health check frameworks.
- Developed Python scripts for automating data ingestion and transformation tasks, processing approximately **50,000 records** daily for downstream analytics.
- Implemented **secrets management** and vulnerability scanning within the development lifecycle, enhancing the security posture of deployed applications.
- Designed and implemented **REST APIs** using **Java Spring Boot** for service-to-service communication, incorporating robust error handling and validation.
- Provided production support for enterprise applications, performing root cause analysis on P1/P2 incidents and implementing corrective actions that improved system stability by **15%**.

## SKILLS

**Cloud Platforms** – AWS, Azure, GCP

**Infrastructure as Code** – Terraform, CloudFormation, Bicep/ARM

**Containerization & Orchestration** – Docker, Kubernetes, AKS, EKS, GKE

**CI/CD** – Azure DevOps, GitLab CI, Jenkins

**Programming Languages** – Python, Bash, PowerShell, Java

**Networking & Security** – VPNs, Firewall Settings, Secrets Management, Vulnerability Scanning

**Observability** – Monitoring, Logging, Distributed Tracing, Health Checks

## PROJECTS

### Cloud Infrastructure Automation with Terraform

- Developed and maintained **Terraform modules** to provision and manage **AWS** infrastructure, including EC2 instances, S3 buckets, and VPC networks.
- Implemented CI/CD pipelines using **Jenkins** to automate Terraform apply operations, ensuring consistent and repeatable environment deployments.
- Integrated infrastructure security best practices by incorporating **security group** configurations and IAM roles within Terraform manifests.

### Containerized Application Deployment Pipeline

- Built a CI/CD pipeline in **GitLab CI** to automate the build, test, and deployment of **Docker** containers to a **Kubernetes (EKS)** cluster.
- Configured **Kubernetes** deployments, services, and ingress resources to manage application lifecycle and network access for microservices.
- Implemented **Prometheus** and **Grafana** for monitoring application health and performance within the Kubernetes environment.

## EDUCATION

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
