PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided first-level IT support for the Cork office, addressing issues with **audio/visual equipment**, **computers**, and **printers**, resolving approximately 85% of hardware-related tickets within the same business day.
- Administered and maintained **Microsoft 365 products**, including Exchange Online and SharePoint, supporting over 150 users and ensuring seamless collaboration across the local team.
- Acted as a liaison between the Service Delivery team and other IT groups, coordinating on **network issues** and escalating complex problems to **Infrastructure** and **Security** teams.
- Installed, configured, and supported third-party enterprise applications such as **Microsoft OS (Windows 10/11)**, **macOS**, and **Adobe Creative Suite**, ensuring optimal performance and user satisfaction.
- Collaborated with the Lead Network Analyst to propose and implement IT solutions, including the rollout of a new **collaboration platform** that enhanced team productivity by an estimated 15%.
- Managed the day-to-day operation and maintenance of **AV systems** within meeting rooms and collaboration spaces, performing regular checks and promptly resolving any technical faults.
- Containerized internal support tooling using **Docker** and deployed to an **AWS EC2** instance, improving deployment speed and consistency for support scripts.

SKILLS

Operating Systems – Windows 10, Windows 11, macOS

Productivity Suites – Microsoft 365, Adobe Creative Suite

Hardware Support – Computers, Printers, Audio/Visual Equipment, Peripherals

IT Support Tools – Ticketing Systems, Service Delivery Platforms

Cloud & Containerization – AWS EC2, Docker

Networking – Network Troubleshooting, Collaboration Spaces

Enterprise Systems – Microsoft OS, Third-Party Enterprise Systems

PROJECTS

Enterprise Application Support & Deployment

- Managed the deployment and ongoing support for a suite of enterprise applications, including **Windows 10**, **macOS**, and **Adobe Acrobat Pro**, for a user base of approximately 200 employees.
- Developed automated diagnostic scripts in **Python** to quickly identify common software conflicts and configuration errors, reducing average ticket resolution time for application issues by 20%.
- Coordinated with internal **Database Administrators** and application vendors to resolve complex integration issues and apply critical patches, maintaining system stability.

Collaboration Space AV System Upgrade

- Led the upgrade and configuration of **audio/visual equipment** in 15 meeting rooms, integrating new displays, cameras, and conferencing systems.
- Developed standardized troubleshooting guides and performed initial setup for end-users, improving the success rate of first-time meeting connections by 30%.
- Worked with external vendors to ensure seamless integration of new hardware and provided post-installation support to the local team.
