PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported complex quoting and rebate requests for non-standard pricing scenarios, ensuring adherence to established pricing policies and operational controls.
- Reviewed and validated pricing structures, discount applications, and rebate logic for accuracy and compliance across a portfolio of enterprise customer deals.
- Served as a subject-matter expert for edge cases and complex pricing scenarios, providing guidance to sales and business operations teams.
- Collaborated with Sales and Distributor partners on pre-pricing activities, facilitating accurate quotation generation and ensuring alignment with commercial strategies.
- Participated in process standardization initiatives aimed at simplifying quoting and rebating workflows, contributing practical feedback from daily operations.
- Assisted in the adoption of new AI tools and workflows within the Quoting & Rebating Operations (QRO) organization, providing operational insights for process refinement.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) across interconnected enterprise systems.

SKILLS

Quoting & Rebating – Complex Quoting, Non-Standard Pricing, Rebate Programs, Discount Structures, Pricing Governance, MeetComp

Sales Operations – Sales Support, CRM Systems, Pricing Systems, Deal Desk, Business Operations

Process & Improvement – Process Standardization, Continuous Improvement, AI Transformation, Workflow Governance, Operational Controls

Collaboration & Communication – Cross-Functional Collaboration, Stakeholder Management, Written Communication, Verbal Communication, Partner Support

Technical & Data Skills – SQL, Python Scripting, Data Validation, REST APIs, Jira, Confluence, Change Management

PROJECTS

Enterprise Pricing & Rebate System Enhancement (HCL Technologies)

- Developed Python scripts to automate the validation of rebate program eligibility against customer sales data, reducing manual review time by approximately **30%**.
- Collaborated with business analysts to define requirements for a new discount application module within an internal pricing tool, ensuring alignment with company policies.
- Contributed to the integration testing of a new pricing system, verifying data flow and accuracy between the CRM and the pricing engine.

Customer Deal Support & Process Automation (HCL Technologies)

- Engineered automated data reconciliation workflows using SQL and Python to compare customer deal terms against historical records, identifying discrepancies for **15+** complex accounts.
- Designed and implemented standardized templates for non-standard quoting requests, improving clarity and reducing back-and-forth communication with sales teams.
- Provided post-implementation support for updated quoting procedures, documenting common issues and resolutions for the support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021
