PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained production-level Java Spring Boot applications, authoring **REST APIs** for cross-service communication and integrating with PostgreSQL databases.
- Engineered **Python scripts** to automate ETL processes for data ingestion and transformation, supporting scheduled reporting for operational teams and reducing manual effort by an estimated **15%**.
- Managed incident response for critical enterprise applications using **Splunk** and **Dynatrace**, adhering to strict SLAs and performing root cause analysis for P1/P2 incidents.
- Contributed to the operational health of the European Sovereign Cloud (ESC) by reviewing service logs and identifying anomalies for actionable bug reports, enhancing system efficiency.
- Participated in the enhancement of day-to-day operations for high-availability AWS services, providing feedback on change management documents and addressing the team's operational backlog.
- Designed and implemented **Docker containers** for application deployment, integrating with **Jenkins** CI/CD pipelines to automate build and deployment processes.
- Collaborated with technology leaders to ensure continuous improvements in availability, reliability, and performance of AWS services within the Utility Computing organization.

SKILLS

Cloud Platforms – AWS, EC2, S3, Lambda, CloudWatch

Programming Languages – Java, Python, SQL, Linux Shell Scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Docker, Jenkins, Git

Monitoring & Observability – Splunk, Dynatrace

Tools – Jira, Confluence

PROJECTS

Cloud Operations Automation Suite (HCL Technologies)

- Developed a suite of **Python scripts** to automate routine operational tasks on AWS infrastructure, including EC2 instance management and S3 bucket monitoring.
- Integrated the automation scripts with **Jenkins pipelines** to enable scheduled execution and on-demand triggering, reducing manual intervention for common maintenance activities by approximately **20%**.
- Authored comprehensive **runbooks** and documentation for the automation suite, facilitating knowledge transfer and enabling faster troubleshooting for the operations team.

Distributed Systems Monitoring and Alerting (HCL Technologies)

- Engineered a **Java Spring Boot** microservice to aggregate and process monitoring data from disparate systems, feeding into a centralized dashboard.
- Implemented real-time alerting mechanisms based on configurable thresholds using **PostgreSQL** for state management, reducing alert fatigue by filtering out transient issues.
- Containerized the microservice using **Docker** for consistent deployment across development and production environments, improving deployment reliability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
