PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a shift of 15 Manufacturing Process Technicians to achieve production targets in accordance with **GMP** and safety standards, minimizing schedule disruptions through proactive problem-solving.
- Facilitated daily team meetings and scheduling to align groups on critical activities, ensuring adherence to the manufacturing plan and production targets for drug product (syringes).
- Supported the commissioning and qualification of a new filling line, collaborating with cross-functional teams including Maintenance, Engineering, and Quality to ensure smooth product transfer.
- Acted as an Aseptic Coach, observing and advising on aseptic practices within manufacturing cleanrooms to maintain the highest standards of quality and safety.
- Developed and coached a team of 15 Manufacturing Process Technicians on Amgen values and leadership attributes, conducting performance reviews via the **MAP** process to ensure clarity and accountability.
- Ensured team members compiled, maintained, and reviewed all necessary reports and documentation, including **Electronic Batch Records (EBRs)**, using appropriate systems and **SOPs**.
- Containerised Python-based data processing scripts with **Docker** and deployed them to a Linux environment, managing logs and ensuring reliable execution for batch reporting.

SKILLS

Manufacturing Operations – GMP, Aseptic Filling, Formulation, Drug Product Manufacturing, Production Schedule Adherence, Batch Records, SOPs

Team Leadership & Development – People Management, Coaching, Mentoring, Performance Management, MAP Process, Team Engagement, Training Needs Identification

Quality & Compliance – Quality Assurance (QA), Quality Control (QC), Regulatory Compliance, EH&S, Audits (FDA, HPRA)

Process Improvement & Engineering – Lean Manufacturing, Continuous Improvement, Commissioning, Qualification, Product Transfer, Problem-Solving

Technical Skills – Python, Docker, Linux, SQL, R, Power BI, Electronic Batch Records (EBR), PAS/X, QMTS

PROJECTS

Automated Batch Reporting System (HCL Technologies)

- Developed a Python-based application to automate the generation of daily operational reports for financial services clients, reducing manual effort by approximately 8 hours per week.
- Engineered data extraction and transformation pipelines using **pandas** and **SQL** to consolidate data from PostgreSQL and Oracle databases into a unified reporting dataset.
- Implemented robust error handling and logging mechanisms using **Splunk**, providing clear visibility into report generation status and potential data issues.

Clinical Trial Data Analysis Dashboard (MSc Capstone)

- Designed and developed an interactive **Power BI** dashboard to visualize key metrics from simulated clinical trial data, enabling stakeholders to track patient progress and study outcomes.
- Applied **DAX** measures and complex data modelling techniques to aggregate and analyze patient enrollment, treatment adherence, and adverse event data.
- Performed ETL operations using **Power Query** to clean and shape raw data from multiple sources, ensuring data integrity for the reporting suite.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
