PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the planning and execution of **capital projects** within the Facilities Department, coordinating timelines and resource allocation for new installations.
- Provided **mechanical engineering support** for facility upgrades, reviewing design specifications and ensuring compliance with project requirements.
- Reviewed technical submittals from **contractors and vendors**, verifying alignment with project scope and technical documentation standards.
- Analyzed **project data** related to schedules and budgets, generating detailed reports for management to inform decision-making and track progress.
- Collaborated with cross-functional teams, including operations and internal departments, to identify and implement timely business solutions for facility integration.
- Identified and began mitigating potential project risks, including those related to **Environmental, Health, and Safety (EHS)** standards.
- Managed preparation and review of **Standard Operating Procedures (SOPs)** and other technical documentation, ensuring clarity and adherence to departmental standards.

SKILLS

Project Management – Capital Projects, Project Planning, Execution, Scheduling, Budgeting, Risk Mitigation, Technical Documentation

Engineering Support – Mechanical Engineering, Facility Upgrades, Design Review, Technical Submittals, Equipment Registers, Procurement

Software & Tools – AutoCAD, Revit, Microsoft Office Suite (Word, Excel, PowerPoint), Jira, Confluence

Collaboration & Communication – Cross-functional Teams, Contractor Liaison, Vendor Management, Stakeholder Communication, Problem-Solving

Reporting & Analysis – Project Data Analysis, Performance Reporting, Budget Tracking, Schedule Analysis

PROJECTS

Facilities Capital Project Support (HCL Technologies)

- Supported the project management of a new office build-out, assisting with the review of **mechanical and electrical design** submittals from multiple vendors.
- Maintained and updated project trackers for equipment registers and technical documentation, ensuring all project stakeholders had access to current information.
- Coordinated with internal IT and security departments to ensure seamless integration of new facilities infrastructure with existing systems.

SOP Development for Production Systems (HCL Technologies)

- Developed and refined **Standard Operating Procedures (SOPs)** for critical production systems, improving clarity and consistency for operational teams.
- Collaborated with business analysts and operations teams to gather requirements for documentation, ensuring all procedural steps were accurate and complete.
- Contributed to the preparation of technical specifications for system upgrades, documenting required changes and expected outcomes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
