PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, building RESTful APIs for inter-service communication and handling approximately **1,500 requests per second** during peak hours.
- Designed and implemented data persistence layers using **Hibernate** and **JPA**, managing complex object-relational mappings for core application entities across PostgreSQL databases.
- Authored comprehensive unit and integration tests using **JUnit** and **Mockito** to ensure code quality and maintainability for critical Java application modules.
- Contributed to the design and development of large-scale web applications for **Apple TV Studio & Production** and **Music operations**, focusing on full-stack development.
- Collaborated with **Quality Engineering, DevOps, Design, and Product** teams to deliver complex, distributed solutions within tight deadlines, participating in daily stand-ups and sprint planning.
- Gained experience with **NoSQL databases**, exploring their application in caching and session management for high-throughput services.
- Containerised Java applications using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits and networking for production environments.

SKILLS

Languages – Java, JavaScript, SQL, Python

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, Vue.js, Node.js

Databases – PostgreSQL, MySQL, Oracle, NoSQL

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, RESTful APIs, GraphQL

PROJECTS

Enterprise Java Application Modernization

- Re-architected a monolithic Java application into a microservices-based system using **Spring Boot**, improving deployment frequency and reducing inter-service dependencies.
- Implemented RESTful APIs for data retrieval and manipulation, integrating with **PostgreSQL** using **Hibernate** to manage the persistence layer.
- Enhanced application performance by implementing caching strategies and optimizing database queries, resulting in a **20% reduction** in average response times.

Distributed Systems Integration Platform

- Developed a **Java Spring Boot** backend service to integrate disparate enterprise systems, acting as a central hub for data exchange.
- Designed and implemented **RESTful APIs** to facilitate communication between the platform and client applications, ensuring clear contracts and versioning.
- Containerised the service using **Docker** for consistent deployment across development and production environments on **AWS**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
