## PROFESSIONAL EXPERIENCE

---

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production incidents and SLA adherence for enterprise Java/.NET applications, performing root cause analysis using **Splunk** and **Dynatrace** to resolve P1/P2 issues within defined timeframes.
- Developed Python scripts to automate data extraction, transformation, and loading processes for scheduled operational reports, handling approximately **15 GB** of data daily for business analysis.
- Executed ad-hoc SQL queries and managed schema changes across **PostgreSQL** and **MySQL** databases to support application updates and data validation efforts.
- Supported the delivery of effective compliance and risk management programs by identifying, managing, and mitigating business and digital risks, aligning with **ISO standards** and **GDPR**.
- Contributed to technical and operational resilience initiatives, including participation in business continuity and disaster recovery planning activities.
- Prepared detailed reports and maintained risk registers, conducting comprehensive risk and compliance assessments for various project domains.
- Containerized Java Spring Boot applications using **Docker**, deploying them to **AWS EC2** instances and managing basic configurations for enhanced deployment consistency.

## SKILLS

---

**Programming Languages** – Java, Python, SQL, R

**Frameworks & Libraries** – Spring Boot, pandas, NumPy, scikit-learn

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**Databases** – PostgreSQL, MySQL, Oracle

**Tools & Technologies** – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, Linux

**Domain Knowledge** – Risk Management, Compliance, Operational Resilience, Data Privacy (GDPR), ISO Standards, Payments Operations

## PROJECTS

---

### Enterprise System Integration Support (HCL Technologies)

- Facilitated cross-system integrations by developing and maintaining **REST APIs** in **Java Spring Boot**, connecting ERP modules with operational platforms.
- Managed change control processes for system configurations and coordinated User Acceptance Testing (UAT) for updates impacting interconnected business systems.
- Performed data flow analysis and validation at the database level across **PostgreSQL** and **Oracle** to ensure data integrity during system migrations.

### Financial Operations Dashboard Enhancement (HCL Technologies)

- Contributed to a financial-services operations dashboard by implementing feature enhancements and resolving production issues affecting transaction monitoring.
- Supported operational alerting for failed and stuck payment messages, analyzing logs in **Splunk** to identify root causes for approximately **500** incidents per quarter.
- Collaborated with business analysts and operations teams to gather requirements for dashboard reporting and support post-implementation triage activities.

## EDUCATION

---

### M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

### B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
