PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the end-to-end delivery of **supply chain projects** for new product introductions, coordinating **cross-functional technical teams** to meet established targets and objectives.
- Executed **laboratory testing** for raw material and supplier qualifications, including detailed **failure investigations** into problematic products to determine root causes and recommend corrective actions.
- Generated comprehensive **test result documentation** and reports for supply chain management (SCM) files, ensuring adherence to quality assurance and **GMP / FDA / ISO regulations**.
- Supported internal problem resolution and product maintenance by providing **technical support** to other departments within the organization, facilitating efficient issue triage.
- Contributed to the Value Assignment and Technical Services teams by assisting other AU technical operations teams as required, ensuring broad operational coverage.
- Developed and maintained **Python scripts** for data analysis and automation, integrating with **PostgreSQL** databases to extract and transform data for reporting and operational insights.
- Containerized **Java Spring Boot applications** using **Docker** and deployed them to **AWS EC2** instances, managing CI/CD pipelines with **Jenkins** for seamless code integration and deployment.

SKILLS

Project Management – Supply Chain Projects, NPI, Cross-Functional Teams, Technical Operations, Value Assignment, Technical Services

Laboratory & Quality – Laboratory Testing, Raw Material Qualification, Supplier Qualification, Failure Investigation, Root Cause Analysis, Corrective Action, Quality Assurance, GMP, FDA, ISO Regulations

Data Analysis & Scripting – Python, PostgreSQL, Data Analysis, Automation, ETL, Data Transformation, Reporting

Software Development – Java, Spring Boot, REST APIs, Docker, AWS EC2, Jenkins, CI/CD, Git, Code Reviews

Domain Knowledge – Clinical Chemistry, Biochemistry, Biology, Immunology, Hematology, Laboratory Equipment, Chemicals, Bio-hazardous Materials

Soft Skills – Communication, Organizational Capabilities, Attention to Detail, Fast-paced Environment, Prioritization, Independent Workload Management

PROJECTS

Supply Chain Project Management for Diagnostic Reagents

- Managed a 6-month project to qualify three new suppliers for critical diagnostic reagents, coordinating lab testing and cross-functional team reviews.
- Developed standardized test protocols and documentation templates for new raw material qualifications, improving consistency and reducing review time by **15%**.
- Collaborated with Quality Assurance to ensure all testing and documentation met **FDA and ISO 13485** requirements for medical device components.

Automation of Laboratory Data Reporting

- Developed a **Python** script to automate the aggregation and formatting of data from multiple laboratory instruments and LIMS, reducing manual reporting effort by approximately **10 hours per week**.
- Integrated the script with **PostgreSQL** to store historical test results, enabling easier trend analysis and ad-hoc querying for troubleshooting.
- Built interactive **Power BI dashboards** to visualize key performance indicators from the aggregated data, providing stakeholders with real-time insights into laboratory operations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
