PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and deployed **Java Spring Boot** microservices for core business logic, handling approximately **1,500 requests per second** during peak loads.
- Designed and implemented data access layers using **Hibernate** and **JPA**, managing complex object-relational mappings for a **multi-tenant enterprise system**.
- Authored **JUnit** and **Mockito** test suites for new Java features, achieving over **85% code coverage** and reducing production bugs by **20%**.
- Collaborated with product managers to translate complex requirements into technical specifications, participating in **sprint planning** and providing **technical estimations** for new feature development.
- Integrated internal services with external APIs using **REST**, ensuring seamless data flow and functionality across disparate systems.
- Containerized Java applications using **Docker** and deployed them to an **AWS ECS cluster**, streamlining the development-to-production workflow.
- Managed incident response for critical production systems, performing root cause analysis and implementing fixes to maintain service level agreements for an **enterprise client**.

SKILLS

Languages – Java, Python, SQL, R, English

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, RStudio

Methodologies – Agile, Scrum

PROJECTS

Java-based Transaction Processing System

- Engineered a **Java Spring Boot** application to process high-volume financial transactions, ensuring data integrity and adherence to processing schedules.
- Implemented asynchronous messaging patterns using **JMS** for reliable communication between microservices, improving system resilience and throughput.
- Developed comprehensive unit and integration tests with **JUnit**, reducing critical defects by **30%** in the pre-production environment.

Customer Data Enrichment Pipeline

- Built an automated **Python** pipeline to ingest and enrich customer data from multiple sources, preparing it for downstream analytics and CRM integration.
- Applied **pandas** and **NumPy** for data cleaning, transformation, and feature engineering, processing over **500,000** customer records weekly.
- Designed and implemented ETL processes using **SQL** and **PostgreSQL**, ensuring data quality and consistency for reporting dashboards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
