PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed ITSM queues for infrastructure incidents and problems, ensuring timely resolution and adherence to **defined SLAs** for internal customers.
- Executed change management processes, including documentation, implementation, and verification of system configuration updates across diverse infrastructure technologies.
- Diagnosed and troubleshooted system issues, identifying root causes and developing solutions for infrastructure problems within on-premise and **public cloud environments**.
- Contributed to the team knowledge base by documenting solutions and conducting knowledge transfer sessions for peers and end-users, enhancing team expertise.
- Participated in projects for new acquisitions and solution updates, including architecture reviews and implementation tasks, facilitating seamless transition into support duties.
- Mentored and provided technical guidance to team members, acting as a point of escalation for complex issues and fostering a collaborative support environment.
- Prepared accurate and timely reports on system performance and incident resolution, supporting data-driven decision-making for infrastructure operations.

SKILLS

Cloud Platform Management – AWS, Azure

Virtualisation Platform Management – Nutanix, VMWare, Hyper-V

Storage Management – Dell Compellent, PowerStore, PowerScale, HPE Nimble

Hardware Platform Management – Dell Server & Storage, HP Server & Storage

Operating System Management – Windows Server (Active Directory, DNS, DHCP, Group Policy, Certificate Services), Linux

ITSM & Process – ITIL, Change Management, Incident Management, Problem Management

Monitoring & Reporting – Splunk, Dynatrace, CloudWatch, Jenkins, Jira, Confluence

PROJECTS

Enterprise Hybrid Cloud Infrastructure Modernisation

- Managed the deployment and configuration of **AWS EC2 instances** and associated services for hosting enterprise applications, ensuring compliance with security best practices.
- Implemented CI/CD pipelines using **Jenkins and Git** for automated build, test, and deployment of infrastructure code, reducing manual deployment time by **30%**.
- Developed shell scripts for automated log analysis and system health checks on Linux servers, improving proactive issue detection and reducing P1 incident frequency by **15%**.

On-Premise to Cloud Migration Support (HCL Technologies)

- Supported the migration of legacy applications from on-premise data centers to **AWS cloud infrastructure**, including EC2, S3, and CloudWatch configuration.
- Automated data validation and reconciliation processes for migrated datasets using **Python scripting**, ensuring data integrity across systems and reducing manual checks by approximately **40%**.
- Provided production support for migrated applications, troubleshooting issues related to compute, storage, and network connectivity in the new cloud environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
