PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided second-line technical support to end-users across a hybrid remote and onsite environment, resolving approximately **45 tickets** per week within defined SLAs.
- Troubleshoot and resolved escalated technical issues concerning **Microsoft 365** (Outlook, Teams, OneDrive), Windows desktop/server environments, and network connectivity (VPNs, basic firewall rules).
- Managed and resolved user account and device access issues during **onboarding and offboarding** processes, ensuring timely and secure transitions.
- Performed regular system maintenance, including applying **patches and updates** to Windows servers and desktop environments to maintain operational stability.
- Created and maintained internal **knowledge base articles** and technical documentation to support the Level 2 support team and improve issue resolution times.
- Contributed to small-scale IT projects, including assisting with the **migration of user data** and application upgrades across the enterprise.
- Monitored system alerts using **Splunk and CloudWatch**, proactively identifying and addressing potential issues before they impacted end-users.

SKILLS

Operating Systems – Windows Desktop, Windows Server, Linux

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Microsoft 365 Admin Center

Networking – VPNs, Firewalls, Routers, Switches

Productivity Suites – Microsoft 365 (Outlook, SharePoint, Teams, OneDrive)

Support Tools – Service Desk Systems, Jira, Confluence, Splunk, Dynatrace

Scripting & Automation – Python, Shell Scripting

Development Basics – Java Spring Boot, REST APIs, Docker

PROJECTS

Enterprise IT Support Enhancement Initiative

- Developed a comprehensive suite of **knowledge base articles** for common L2 support issues, reducing average ticket resolution time by 18% for documented problems.
- Assisted in the rollout of a new **VPN client** across 200+ remote users, providing direct support and creating user guides to facilitate adoption.
- Automated user account creation and deactivation for new hires and leavers using **Python scripts** interacting with Active Directory, cutting down manual processing time by 60%.

Internal Systems Monitoring and Alerting Dashboard

- Configured and maintained **Splunk dashboards** to aggregate and visualize logs from critical enterprise applications, enabling faster incident detection.
- Implemented automated alerting rules within **CloudWatch** for key performance indicators on EC2 instances and Lambda functions, reducing alert noise by 30%.
- Collaborated with operations teams to define critical alerts and response playbooks for production issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
