PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed customer orders received via phone, email, and in-person interactions, ensuring timely fulfillment for deliveries and collections.
- Assigned delivery orders to a fleet of trucks, optimizing routes and schedules to meet specific customer requirements and deadlines.
- Inputted order data into the company's orders system, processed sales invoices and statements, and contacted customers to arrange payment collection.
- Coordinated order activities by liaising with internal personnel, including operations and logistics teams, and directly with customers.
- Executed general office administration tasks, including managing correspondence, maintaining records, and providing support to the sales team.
- Analyzed customer payment histories and outstanding invoices to proactively contact clients for payment, reducing average payment cycle time by **15%**.
- Maintained accurate and detailed records of all customer interactions and order statuses within the internal system, ensuring data integrity for over **200 orders** weekly.

SKILLS

Office Administration – Customer Order Management, Invoicing, Payment Processing, Data Entry, Record Keeping, Customer Communication

Software & Tools – Microsoft Word, Microsoft Excel, Microsoft Outlook, Telephone Systems

Core Competencies – Attention to Detail, Analytical Skills, Reliability, Trustworthiness, Independent Work, Teamwork

Logistics & Operations – Delivery Scheduling, Fleet Coordination, Dispatch Management

PROJECTS

Order Management System Enhancement (HCL Technologies)

- Developed Python scripts to automate the import of new customer orders into a legacy system, reducing manual data entry effort by **40%**.
- Implemented data validation checks using SQL queries to ensure accuracy of order details before processing, catching approximately **15%** of potential data errors.
- Created automated reports detailing daily order volumes and payment statuses, providing key operational insights to the client's business analysts.

Customer Payment Reconciliation Dashboard (MSc Data Analytics)

- Designed and built an interactive Power BI dashboard to visualize customer payment data, consolidating information from multiple sources.
- Developed DAX measures to track key metrics such as outstanding balances, payment timeliness, and customer payment trends over time.
- Presented the final dashboard to academic stakeholders, demonstrating improved visibility into customer accounts receivable.
