PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Deployed and configured **Azure Networking Security** components, including **Azure Firewall** and **NSGs**, to enforce network segmentation and threat protection for enterprise clients.
- Executed the onboarding and fine-tuning of the **Microsoft Defender suite**, specifically **Defender for Endpoint** and **Defender for Cloud**, across multiple customer environments, enhancing threat detection capabilities by an estimated **30%**.
- Implemented and managed **Microsoft Sentinel** for SIEM, deploying connectors, automating response playbooks, and creating custom detection rules to monitor security events from diverse data sources.
- Configured **Microsoft Purview** capabilities, including **Data Loss Prevention (DLP)** policies and **Information Protection** with sensitivity labels, to classify and protect sensitive data according to regulatory requirements.
- Managed security controls for Windows and mobile endpoints using **Microsoft Intune** policies, ensuring device compliance and enforcing secure configurations across a fleet of over **500** devices per client.
- Performed security **hardening** on Azure resources by implementing **Azure Policy** and resource locks, ensuring operational compliance and adherence to security best practices.
- Produced detailed **technical runbooks** and **'as-built' documentation** for deployed security solutions, facilitating knowledge transfer and operational handover to client support teams.

SKILLS

Microsoft Security Ecosystem – Azure Networking Security, Azure Firewall, NSGs, Azure WAF, Entra ID, Conditional Access, PIM, Entra Private Access, Microsoft Defender suite, Defender for Endpoint, Defender for Cloud, Defender for Office 365, Microsoft Sentinel, Microsoft Purview, Data Loss Prevention (DLP), Information Protection, sensitivity labels, encryption, records management, eDiscovery, communication compliance, audit log, data classification schemes, retention policies, Microsoft Intune, Identity and Access Management (IAM), Azure Policy, resource locks

Cloud Platforms – Azure, AWS

Programming & Scripting – Python, PowerShell, Bash

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle

Development Tools & Methodologies – Git, Jenkins, Docker, Agile, Scrum

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

PROJECTS

Azure Security Implementation for Financial Services

- Configured **Entra ID Conditional Access policies** and **Multi-Factor Authentication (MFA)** to secure access to critical financial applications for an enterprise client.
- Deployed **Microsoft Defender for Cloud** to monitor and harden cloud workloads, identifying and remediating over **15** high-severity security misconfigurations within the first month.
- Developed standardized **PowerShell scripts** to automate the deployment of **NSGs** and **Azure Firewall rules**, reducing manual configuration time by approximately **40%**.

Data Governance and Compliance Rollout

- Implemented **Microsoft Purview Data Loss Prevention (DLP)** policies to prevent sensitive data exfiltration, covering email, Teams, and SharePoint environments for a client with over **1,200** users.
- Defined and applied **data classification schemes** and **retention policies** within Purview, ensuring compliance with GDPR and internal data handling standards.
- Configured **audit log settings** and generated reports for eDiscovery requests, supporting legal and compliance investigations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
