PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed data accuracy against client policies, flagging approximately **400** discrepancies per week for policy adherence.
- Engaged with businesses via outbound phone calls to verify information and update client platforms, successfully validating data for over **150** entities monthly.
- Managed a queue of content review tasks, ensuring timely processing and adherence to strict compliance requirements within a fast-paced environment.
- Collaborated with cross-functional teams to address content moderation escalations and implement feedback for process improvements.
- Documented standard operating procedures for data verification tasks, contributing to a knowledge base used by the wider support team.
- Analyzed feedback from customer engagement interactions to identify recurring issues and suggest actionable improvements to platform data.
- Participated in daily scrum meetings and sprint planning sessions, contributing to the team's agile workflow and task prioritization.

SKILLS

Data Review & Moderation – Content Review, Data Accuracy Assessment, Policy Adherence, Compliance, Outbound Calls, Business Engagement

Communication & Collaboration – Verbal Communication, Written Communication, Stakeholder Engagement, Cross-functional Collaboration, Customer Support

Technical Skills – Computer Fluency, Microsoft Office Suite, Jira, Confluence

Languages – English (Fluent), Dutch (Fluent)

Domain Knowledge – General Country-Specific Knowledge (Netherlands)

PROJECTS

Customer Data Verification Platform Enhancement

- Developed a Python script to automate the cross-referencing of business data against multiple public sources, reducing manual verification time by **30%**.
- Implemented data validation checks within the script to flag inconsistencies against predefined client platform schemas, improving data integrity.
- Documented the script's functionality and usage for the operations team, enabling them to perform more efficient data updates.

Multilingual Content Review Workflow Automation

- Designed and implemented a workflow using **Jira** and **Confluence** to manage content moderation tasks for different language teams.
- Created standardized templates for reporting content review outcomes, ensuring consistent communication with business analysts and operations teams.
- Analyzed review completion times and identified bottlenecks, proposing adjustments that improved average task turnaround by **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
