PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed data for accuracy against client policies, ensuring adherence to content moderation guidelines for an online multinational company.
- Engaged with business stakeholders via outbound phone calls to verify information and update client platforms, facilitating accurate data management and compliance.
- Collaborated with internal teams to support a leading online multinational company's digital product, contributing to project success through data review and validation.
- Assisted in maintaining compliance by adhering to all regulatory requirements and internal policies during data review and stakeholder engagement activities.
- Managed and focused on repetitive data assessment tasks with a high degree of attention to detail, ensuring consistency and quality in moderation outcomes.
- Provided support for a rapidly growing multilingual team by performing data moderation and content review tasks, contributing to the overall operational efficiency.
- Containerized data moderation services using **Docker** and deployed to a Kubernetes cluster (EKS), configuring basic resource limits for predictable rollout.

SKILLS

Core Competencies – Data Moderation, Content Review, Customer Engagement, Communication, Problem-Solving, Adaptability, Flexibility, Attention to Detail

Languages – English (Fluent), French (Fluent)

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, CloudWatch, Jenkins, Git

Cloud & Infrastructure – AWS (EC2, S3, Lambda), Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Programming Languages – Python, Java

BI & Analytics – Power BI, Tableau, DAX, Power Query

PROJECTS

Customer Data Verification Platform (HCL Technologies)

- Developed a Python-based platform to automate data verification processes for enterprise clients, integrating with existing client systems via REST APIs.
- Implemented data validation checks using **SQL** queries across PostgreSQL and Oracle databases to ensure data integrity before platform updates.
- Collaborated with business analysts to define requirements for data accuracy and compliance, ensuring the platform met client-specific operational needs.

Automated Reporting and Alerting System (HCL Technologies)

- Built **Python** scripts to automate the generation of daily operational reports, parsing data from multiple sources including PostgreSQL.
- Designed and implemented alerting mechanisms using **Splunk** to notify operations teams of critical data anomalies or processing failures, reducing manual monitoring overhead by an estimated 30%.
- Extended functionality to include basic data transformation for ETL processes, preparing data for downstream analytical dashboards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
