PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed data accuracy against client policies for a global technology brand, ensuring adherence to specified operational guidelines.
- Engaged with business stakeholders via outbound phone calls to verify information and update client platforms, facilitating data integrity and platform accuracy.
- Collaborated with internal teams to respond to requests and support the success of a digital product used by over a billion people worldwide.
- Participated in regular training programs to deepen knowledge of world-class platforms and tools, contributing to continuous professional development.
- Managed data moderation tasks, focusing on attention to detail and the ability to perform repetitive tasks with consistent quality.
- Contributed to a rapidly growing multilingual team, demonstrating adaptability and flexibility in a fast-paced environment.
- Supported production monitoring of enterprise applications using Splunk and Dynatrace, responding to P1/P2 incidents and managing SLAs.

SKILLS

Communication – Excellent verbal and written communication, Customer engagement, Outbound phone calls

Data Review – Data accuracy assessment, Client policies, Data verification

Compliance – Adherence to compliance requirements, Regulatory awareness

Tools – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Programming – Python, Java, SQL, Spring Boot

Cloud & OS – AWS, Linux

PROJECTS

Customer Data Verification Platform

- Developed a Python script to automate the initial data verification checks against client policy requirements, reducing manual review time by ~15%.
- Designed and implemented a system to log and categorize data discrepancies flagged during the verification process, aiding in root cause analysis for **four** distinct issue types.
- Integrated the verification script with a mock client platform API to simulate data updates, ensuring seamless data flow for downstream processing.

Operational Dashboard for Transaction Monitoring

- Built interactive dashboards in **Power BI** to visualize transaction flow and identify anomalies, supporting an operations team of **six**.
- Developed **DAX** measures to calculate key performance indicators related to transaction processing times and error rates.
- Used **Power Query** to ETL data from multiple sources, preparing it for analysis and dashboard consumption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
