PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Reviewed and assessed incoming data submissions against established client policies, identifying and flagging approximately 30-40 non-compliant entries per shift for further investigation.
- Engaged with business clients via outbound phone calls to verify account information and update client platforms, ensuring data accuracy for over 50 client interactions weekly.
- Developed Python scripts to automate data validation checks for new client onboardings, reducing manual verification time by **20%** and improving initial data quality.
- Collaborated with cross-functional internal teams to refine data moderation guidelines and ensure adherence to compliance requirements across diverse content types.
- Maintained detailed records of moderation decisions and client communications using **Jira** and **Confluence**, contributing to audit trails and process improvement initiatives.
- Managed a personal queue of repetitive data review tasks, consistently meeting or exceeding daily targets for accuracy and volume, demonstrating strong attention to detail.
- Supported production environments by analyzing logs in **Splunk** to identify anomalies and resolve P2 incidents related to data processing workflows.

SKILLS

Core Competencies – Data Review, Content Moderation, Customer Engagement, Compliance Adherence, Problem-Solving, Adaptability, Attention to Detail

Programming Languages – Python, SQL, Java

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Modelling

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Tools & Technologies – Jira, Confluence, Jenkins, Git, Docker, Splunk, Dynatrace, Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn, Spring Boot, REST APIs

PROJECTS

Data Verification and Client Platform Update Tool

- Engineered a Python application that interfaces with client APIs to retrieve and update business information, automating a key part of the client verification workflow.
- Implemented data validation logic within the tool to ensure all updates adhere to platform schema requirements before submission, catching approximately **65%** of potential data errors at the point of entry.
- Developed a basic reporting feature to track the volume and success rate of updates performed by the tool, providing insights for process optimization.

Automated Data Quality Reporting Dashboard

- Created a **Power BI** dashboard to visualize data quality metrics derived from various enterprise systems, consolidating operational reporting.
- Designed and implemented **DAX** measures to calculate key performance indicators related to data accuracy and completeness, presenting findings to operational teams.
- Utilized **Power Query** to extract, transform, and load data from multiple SQL databases (PostgreSQL, Oracle) for dashboard population.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
