PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Performed in-depth credit risk assessments for surety business line clients, analyzing financial statements and market trends to determine risk exposure.
- Developed and maintained strong client relationships through regular communication, identifying evolving needs and tailoring financial solutions to meet their requirements.
- Negotiated contract terms and managed surety bond portfolios, ensuring adherence to underwriting guidelines and regulatory compliance.
- Monitored existing client portfolios and identified potential risks throughout the insurance cycle, proactively implementing mitigation strategies to minimize financial losses.
- Contributed to the development of new surety products and enhancement of existing offerings based on market analysis and client feedback.
- Authored well-researched proposals for diverse risk levels, supporting senior underwriters in decision-making processes for new contract approvals.
- Containerized Java Spring Boot applications for deployment on **AWS EC2** instances, improving deployment consistency across development and production environments.

SKILLS

Finance & Analysis – Credit Risk Assessment, Financial Analysis, Accounting Principles, Market Dynamics, Risk Mitigation, Underwriting

Client Relations & Negotiation – Client Relationship Management, Negotiation, Interpersonal Skills, Prospecting, Solution Tailoring

Core Technologies – Java, Spring Boot, REST APIs, SQL, PostgreSQL, Python, AWS (EC2, S3, Lambda, CloudWatch)

Development Tools & Practices – Docker, Git, Jenkins, Jira, Confluence, Agile Methodologies, Code Reviews

Data & BI Tools – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

PROJECTS

Financial Risk Analysis Dashboard (HCL Technologies)

- Developed a **Power BI** dashboard to visualize key financial metrics and risk indicators for enterprise clients, enabling faster identification of potential credit exposures.
- Integrated data from multiple sources using **Power Query**, performing data transformations and creating complex **DAX** measures to support in-depth client financial analysis.
- Collaborated with business analysts to gather requirements and deliver interactive reports that supported client-facing decision-making processes.

Automated Transaction Monitoring System (HCL Technologies)

- Engineered a **Python**-based system to monitor transaction flows within a financial services operations dashboard, flagging anomalies and potential failures for operational teams.
- Implemented automated alerting mechanisms using **SQL** queries against PostgreSQL and MySQL databases, reducing manual oversight by approximately **40%**.
- Designed and deployed **REST APIs** using Java Spring Boot for seamless integration with existing financial operations platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
