PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and resolved application issues for enterprise systems, performing root cause analysis to ensure application availability across server domains.
- Supported customers during online test sessions and offline ticket resolution, preparing documentation for all identified issues and their corresponding solutions.
- Coordinated with UAT departments to assist in releases and deployments to various environments, ensuring successful production outputs.
- Designed and maintained expertise in the application process flow and systems, providing updates and technical support to internal teams and external users.
- Organized and implemented medium-sized technical projects, assisting Software Engineers with all processes and contributing to project delivery.
- Diagnosed and addressed application issues by performing root cause assessments and debugging on server domains, maintaining high levels of application availability.
- Containerized Java Spring Boot services using **Docker** and deployed them to **AWS EC2** instances, configuring **Jenkins** pipelines for automated CI/CD.

SKILLS

Core Technologies – Java, Spring Boot, SQL, REST APIs, Python, Docker, Linux, Git, Jenkins

Cloud & Databases – AWS (EC2, S3, Lambda, CloudWatch), PostgreSQL, MySQL, Oracle, Microsoft SQL Server, Microsoft IIS

Support & Monitoring – Splunk, Dynatrace, Jira, Confluence, P1/P2 incident response, Change Management

Analytics & BI – Power BI, Tableau, R, pandas, NumPy, scikit-learn, DAX, Power Query

Methodologies – Agile, Scrum, Root Cause Analysis, Test Support, UAT Coordination

PROJECTS

Enterprise Application Support & Automation Platform

- Developed Python scripts to automate ETL processes for data reconciliation across multiple financial systems, reducing manual effort by **40%**.
- Built and maintained a Java Spring Boot application with a PostgreSQL backend to centralize logging and monitoring data from various enterprise applications, enabling faster issue diagnosis.
- Implemented RESTful APIs within the support platform for integration with ticketing systems, streamlining the incident management workflow.

Customer Operations Dashboard Enhancement

- Enhanced an existing operations dashboard by integrating real-time transaction monitoring data, providing stakeholders with visibility into processing volumes.
- Wrote complex SQL queries against Oracle and PostgreSQL databases to extract and validate data for reporting and operational alerting.
- Prepared detailed reports and documentation on system performance and identified areas for optimization, presenting findings to operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
