PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented a secure, scalable Azure cloud foundation using **Infrastructure as Code** principles with **Terraform**, supporting the deployment of new digital products.
- Managed and monitored Azure services for performance, security, and high availability, ensuring compliance with IT security policies and industry best practices.
- Collaborated with cross-functional teams to integrate Azure cloud solutions with existing enterprise systems, facilitating seamless data flows and operational workflows.
- Automated cloud infrastructure provisioning and management tasks using **PowerShell** scripts, improving deployment efficiency and reducing manual intervention by approximately **30%**.
- Contributed to the adoption of **DevOps** practices and continuous integration/delivery pipelines within the cloud engineering team, enhancing release velocity.
- Developed and maintained high-standard **technical documentation** for Azure cloud solutions, operational procedures, and governance frameworks, enabling knowledge transfer across the team.
- Participated in **Agile** ceremonies and Waterfall delivery models, contributing to sprint planning, technical estimations, and continuous service improvement initiatives.

SKILLS

Cloud Platform – Azure, Azure AD / Entra ID, Azure networking (vNETs, NSGs, firewalls, VPNs, DNS, ExpressRoute), Azure security services, Azure DevOps

Infrastructure as Code – Terraform, ARM Templates

DevOps & CI/CD – GitHub, Azure DevOps, Jenkins, Git

Scripting & Automation – PowerShell, Bash

Networking & Security – Network fundamentals, Backup and resilience principles, Identity and Access Management (IAM), RBAC, MFA

Methodologies – Agile, Waterfall, ITIL, DevOps, Cloud Adoption Framework

PROJECTS

Enterprise Azure Platform Build

- Architected and deployed a foundational Azure environment using **Terraform**, establishing standardized patterns for security, networking, and identity management.
- Implemented **Azure AD** integration for centralized user authentication and role-based access control (RBAC) across cloud resources.
- Configured **Azure DevOps** pipelines for automated deployment of infrastructure and applications, significantly reducing manual configuration efforts.

Cloud Infrastructure Automation & Monitoring

- Developed **PowerShell** scripts to automate routine cloud management tasks, including resource monitoring, log aggregation, and compliance checks.
- Integrated **Azure Monitor** and Log Analytics for proactive performance tracking and incident detection, reducing P1 incident response time by an average of **20%**.
- Documented operational procedures and created runbooks for common cloud infrastructure scenarios, enhancing team's operational discipline.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
