PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the design and implementation of electrical systems for production line upgrades across multiple sites, coordinating project elements for an 8-person engineering team.
- Supported multi-disciplinary engineering projects, including utilities and building services, by preparing User Requirement Specifications (URS) and contributing to technical evaluations.
- Participated in the verification and commissioning of electrical systems, ensuring safe handover to site teams and adherence to company project management procedures.
- Managed contractor activities and provided site supervision during installation phases, ensuring project delivery aligned with budget and timeline targets.
- Contributed to continuous improvement initiatives within the Engineering department, focusing on energy-efficiency projects and process optimization.
- Provided technical electrical support to production and maintenance teams, troubleshooting issues and contributing to root cause analysis for system faults.
- Containerized Python-based automation scripts using **Docker** for consistent deployment on **AWS EC2** instances, enhancing reliability for scheduled reporting tasks.

SKILLS

Electrical Engineering – Industrial electrical systems, Automation, Electrical distribution systems, Control panels, Motors, Drives, Instrumentation, Building services, Production line upgrades

Project Management – Project engineering, URS preparation, Tender documentation, Technical evaluations, Contractor management, Site supervision, Budget tracking, Timeline management, Health & Safety legislation, Safe systems of work

Software & Tools – MS Office Suite, MS Project, AutoCAD

Programming & Scripting – Python, Shell Scripting

Cloud & Containerization – AWS EC2, Docker

PROJECTS

Industrial Automation Project Support (HCL Technologies)

- Assisted in the deployment of new automation controls for a client's manufacturing process, involving integration of **PLC logic** and **motor drive configurations**.
- Supported the preparation of technical documentation and commissioning plans for electrical upgrades, ensuring alignment with project lifecycle requirements.
- Participated in site visits for installation supervision and initial system testing, documenting observations and minor adjustments.

Python-Based Reporting Automation (HCL Technologies)

- Developed Python scripts to automate the generation of weekly operational reports, consolidating data from multiple sources into a single summary document.
- Implemented error handling and logging for the automation scripts, improving the visibility of job failures and reducing manual intervention time by approximately **30%**.
- Managed the deployment and scheduling of these scripts using **Linux cron jobs** and containerized them with **Docker** for execution on **AWS EC2**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
