PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported Supplier Quality Engineering activities including **Change Orders**, **NCEs**, and **NCMRs**, collaborating with cross-functional teams to assess and disposition nonconforming materials.
- Collected manufacturing and inspection data, performing detailed inspections and supporting quality investigations led by Engineers on the shop floor.
- Provided day-to-day quality support on the manufacturing floor, assisting production and inspection teams with methods, processes, and specifications.
- Maintained and updated quality procedures, protocols, and methods, performing routine line audits to verify system effectiveness and adherence to standards.
- Identified and contributed to quality and process improvement initiatives, supporting corrective actions and communicating concerns related to quality and safety.
- Demonstrated strong documentation practices and attention to detail, interpreting drawings and specifications, and effectively using inspection tools and **Microsoft Office** suite.
- Containerized the feature-pipeline services with **Docker** and deployed them to a Kubernetes cluster (EKS), wiring up Helm chart configuration and basic resource limits for predictable rollout.

SKILLS

Quality Systems – GMP, GLP, ISO, Six Sigma, CAPA, SCAR, NCMR, Change Orders, Nonconforming Materials

Manufacturing Support – Shop-floor presence, Process Improvement, Line Audits, Inspection Data, Production Support

Tools & Software – Microsoft Office, Oracle, Agile, Jira, Confluence, Splunk, Dynatrace, Jenkins, Git, Linux

Programming Languages – Java, Python, SQL, R, DAX

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Power Query

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Supplier Quality Investigation and Documentation System

- Developed a **Python**-based application to streamline the intake and tracking of supplier quality investigations, integrating with **Jira** for defect management.
- Implemented automated data validation checks for incoming inspection reports using **pandas**, reducing manual entry errors by approximately **28%**.
- Designed and documented workflows for CAPA and SCAR processes, improving clarity for the quality engineering team and ensuring audit readiness.

Production Line Audit and Compliance Dashboard

- Created interactive **Power BI** dashboards to visualize real-time compliance data from production line audits, enabling faster identification of systemic issues.
- Developed **DAX** measures and Power Query transformations to aggregate data from multiple sources, providing key insights on adherence to GMP and ISO standards.
- Presented dashboard findings to operations and quality assurance teams, facilitating targeted improvement efforts that reduced minor non-conformance reports by **15%** over a quarter.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
