PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production environments for enterprise applications, responding to P1/P2 incidents and ensuring SLA adherence using **Splunk** and **Dynatrace**.
- Developed **Python** scripts for data ingestion and automated reporting, processing approximately 15GB of daily operational data.
- Executed complex **SQL** queries against **PostgreSQL** and **Oracle** databases for data validation and ad-hoc analysis, supporting the financial operations team.
- Implemented new features and bug fixes for **Java Spring Boot** REST APIs, contributing to the development of interconnected enterprise systems.
- Supported the deployment and monitoring of containerized applications on **AWS EC2** instances using **Docker** and basic CI/CD pipelines via **Jenkins**.
- Coached production operators on autonomous maintenance tasks and machine operational setups, enhancing equipment capability within the brewhouse and utilities areas.
- Collaborated with cross-functional teams to identify and resolve equipment-related issues impacting production performance, providing comprehensive maintenance backup.

SKILLS

Maintenance & Reliability – Preventative Maintenance (PM), Reliability Maintenance, Root Cause Analysis, Asset Care, SAP PM, Work Order Planning, Isolations

Brewery Operations – Raw Materials Handling, Brewhouse, Cold Block, Utilities Plants, Water Treatment, Refrigeration, Food Safety

Engineering & Software – Java, Spring Boot, Python, SQL, REST APIs, Linux, Shell Scripting, Git, Jenkins, Docker, AWS (EC2, S3, Lambda, CloudWatch), PostgreSQL, MySQL, Oracle, Splunk, Dynatrace

Process Improvement – Manufacturing Excellence, KPI Management, Process Improvement, Autonomous Maintenance, Capital Work Support

Business & Finance – Budgeting Processes, Maintenance Costs, Financial Awareness, SAP Process Orders

PROJECTS

Automated Production Reporting System (HCL Technologies)

- Developed a **Python**-based ETL pipeline to extract operational data from multiple sources, including **PostgreSQL** and log files.
- Engineered scheduled reports using **Pandas** and generated weekly summaries for production KPIs, improving data accessibility for operations teams.
- Integrated the reporting system with **Jenkins** for automated execution and deployment, ensuring timely delivery of insights.

Equipment Performance Monitoring Dashboard (HCL Technologies)

- Designed and implemented a dashboard using **Splunk** to visualize real-time equipment status and alert on critical failures within the financial services operations environment.
- Wrote custom **SQL** queries to aggregate historical maintenance logs and correlate them with operational downtime, identifying key areas for improvement.
- Collaborated with operations analysts to define key performance indicators and ensure the dashboard met production monitoring requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
