PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **24x7 production support** for enterprise Java applications, managing SLAs and responding to P1/P2 incidents using **Splunk** and **Dynatrace**.
- Automated daily reporting tasks and data extraction processes using **Python scripting**, reducing manual effort by approximately **15 hours per week**.
- Developed and maintained **Java Spring Boot REST APIs** for new feature development and system integrations, ensuring adherence to architectural standards.
- Managed vulnerability remediation and security patching processes for **Windows Server 2019/2022** environments, contributing to the enhancement of the organizational security posture.
- Designed and implemented **Group Policy Objects** to enforce security configurations and manage user settings across a large Windows-based infrastructure.
- Provided escalation support for complex technical issues, mentoring **junior support staff** and contributing to team development and knowledge sharing.
- Configured and maintained **Docker containers** for application deployment and development environments on **AWS EC2** instances.

SKILLS

Operating Systems – Windows Server 2019, Windows Server 2022, Windows Server 2025, Linux (RedHat/OEL), Windows 11

Directory Services & Networking – Active Directory, Group Policy, Networking Concepts

Virtualization & Storage – VMware, Storage Technologies

Security & Compliance – Cyber Security, Vulnerability Remediation, Security Patching, Audit Trails, GDPR

Scripting & Automation – Python, Ansible, REST APIs

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Databases & Monitoring – PostgreSQL, MySQL, Oracle, Splunk, Dynatrace

PROJECTS

Secure Microsoft Infrastructure Rollout

- Designed and deployed a new **Windows Server 2022 infrastructure** with a focus on enhanced security configurations and **Active Directory** integration for a critical enterprise system.
- Implemented comprehensive **Group Policy Objects** to enforce security baselines and manage user access controls across multiple organizational units.
- Developed detailed technical documentation for the new infrastructure, supporting **audit and compliance** requirements and facilitating operational handover.

Automated System Health Monitoring with Python

- Created **Python scripts** to monitor the health and performance of critical enterprise applications hosted on **AWS EC2** instances, parsing logs from **Splunk**.
- Developed automated alerting mechanisms based on script outputs, reducing manual system checks by an estimated **40%** and enabling faster incident detection.
- Integrated monitoring scripts with a **REST API** to push status updates to a central dashboard, providing near real-time operational visibility.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
