PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed sample lifecycle from internal movement to external shipment for analysis, coordinating complex sample pulls and aliquoting activities for a high-throughput laboratory.
- Administered all sample-related documentation, including receipt and review of external sample results, ensuring accurate entry onto LIMS in line with **GMP** and data integrity requirements.
- Generated **environmental monitoring** and **water analysis reports**, delivering agreed quality and business metrics to laboratory management.
- Responded to ad-hoc requests for sample pulls and sample-related information, supporting laboratory analytical personnel and ensuring uninterrupted service delivery.
- Maintained all documentation, systems, and training records in accordance with company, client, safety, housekeeping, and **quality standards**, escalating deviations to management.
- Collaborated with client personnel and suppliers to meet or exceed client requirements and ensure delivery against client processes, demonstrating flexibility to support any area of the business.
- Supported an **enterprise Java** application's production environment by performing monitoring using **Splunk** and **Dynatrace**, managing SLAs and responding to P1/P2 incidents.

SKILLS

Laboratory Operations – Sample Management, Aliquoting, Reference Material Inventory, GMP, Data Integrity, Quality Standards, Environmental Monitoring, Water Analysis

Laboratory Information Management System (LIMS) – LIMS Data Entry, Documentation Administration

Process Improvement – Process Optimisation, Operational Efficiency

Collaboration & Communication – Client Collaboration, Supplier Management, Stakeholder Engagement, Team Player, Communication Skills

Core Software & Systems – Java, Spring Boot, SQL, Python, AWS, Docker, Linux, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI

Data Analysis & Reporting – Report Generation, Data Analysis, Business Metrics

PROJECTS

Laboratory Sample Tracking System Enhancement

- Developed Python scripts to automate the logging and tracking of laboratory samples, reducing manual data entry errors by **15%**.
- Implemented REST APIs using **Flask** to integrate the tracking system with the existing **LIMS**, enabling real-time data updates.
- Designed and generated automated reports on sample throughput and processing times, providing insights for operational efficiency improvements.

Automated Reporting for Environmental Monitoring

- Built a data pipeline using **Python** and **SQL** to extract and consolidate environmental monitoring data from multiple sources.
- Created interactive **Power BI** dashboards to visualise key trends and compliance metrics for laboratory stakeholders.
- Ensured all data processing and reporting adhered to strict **GMP** and data integrity guidelines for regulated environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
