PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the complete sample lifecycle within a regulated laboratory environment, including internal movement, external shipment coordination, and reference material inventory.
- Administered all sample-related documentation, ensuring timely and legible completion in line with GMP and data integrity standards for receipt and review of external sample results.
- Generated comprehensive environmental monitoring and water analysis reports, meticulously tracking and delivering agreed quality and business metrics for client operations.
- Responded to ad-hoc requests for sample pulls and related information, providing critical support to laboratory analytical personnel to ensure uninterrupted service delivery.
- Initiated and managed training documentation and records in accordance with company, client, safety, housekeeping, and quality standards, escalating deviations as required.
- Collaborated effectively with client personnel and suppliers to meet and exceed requirements, ensuring delivery against client processes and deliverables.
- Identified and proactively communicated opportunities for process improvement, optimisation, and operational efficiency within the sample management workflow.

SKILLS

Laboratory Operations – Sample Management, GMP, Data Integrity, Aliquoting, Reference Material Inventory

Reporting & Documentation – Environmental Monitoring, Water Analysis, LIMS, Documentation Management, Record Keeping

Process Improvement – Process Optimisation, Operational Efficiency, Quality Standards, Regulatory Compliance

Collaboration & Communication – Client Collaboration, Stakeholder Engagement, Teamwork, Communication Skills

Data Analysis & Tools – Power BI, Tableau, R/RStudio, pandas, NumPy, scikit-learn, SQL

Software & Systems – Jira, Confluence, Jenkins, Git, AWS (EC2/S3/Lambda/CloudWatch), Docker, Linux

PROJECTS

Laboratory Data Reporting System (HCL Technologies)

- Developed a Python-based system to automate the generation of monthly operational reports from disparate data sources, including sample analysis results and quality control metrics.
- Integrated with a PostgreSQL database to extract and aggregate data for reporting, ensuring data consistency and accuracy for over **10,000 sample records** per month.
- Designed and implemented interactive dashboards using Power BI to visualize key performance indicators related to sample throughput and turnaround time for management review.

Sample Tracking & Compliance Module (MSc Applied Project)

- Designed and implemented a database schema in SQL to track sample provenance and manage compliance documentation for a simulated regulated environment.
- Built a web application using Flask and basic JavaScript to allow users to query sample status and associated compliance records, improving data accessibility for **5 internal users**.
- Applied data modelling techniques to ensure efficient querying and reporting of sample lifecycle events, directly supporting MSc coursework on data warehousing principles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
