PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Prepared and configured new **Windows laptops** and devices for employee onboarding, including OS imaging and software setup, ensuring readiness for immediate use.
- Provided first-line **IT support** to office staff, resolving common issues such as password resets, network connectivity problems, and peripheral device malfunctions.
- Troubleshoot and resolved technical issues within **meeting rooms**, ensuring all audio-visual equipment, screens, and screen-sharing functionalities operated correctly for daily use.
- Managed and maintained inventory of essential IT accessories and peripherals, including various **cables** and connectors, to ensure availability for support tasks and new setups.
- Coordinated the setup and collection of equipment for employee **onboarding and offboarding** processes, maintaining accurate records of assigned devices.
- Acted as the primary on-site point of contact for day-to-day operational and **facilities issues**, liaising with relevant teams for prompt resolution.
- Documented troubleshooting steps and common resolutions for end-user issues, contributing to a growing knowledge base for the IT support function.

SKILLS

Office Support – Administration, Facilities Support, Meeting Room Setup, AV Setups, Deliveries Coordination

IT Support – First-line Support, Troubleshooting, Password Resets, Network Connectivity, Peripherals

End-User Devices – Windows Laptops, Device Imaging, Software Installation, Device Setup, Equipment Maintenance

Operating Systems – Windows, Linux

Productivity Software – Microsoft 365, Office Suite

Tools & Processes – Ticketing Systems, IT Asset Management, Onboarding/Offboarding Support

PROJECTS

Office IT Infrastructure Upgrade and Support

- Managed the deployment of new **Windows laptops** across the department, performing full OS imaging and custom software installation for 45 employees.
- Streamlined the **meeting room technology** setup process by creating standardized checklists for AV equipment, audio systems, and screen sharing configurations.
- Developed a basic inventory management system using Excel to track IT assets, including laptops, peripherals, and cables, supporting **onboarding and offboarding** procedures.

On-Site IT Support Process Improvement

- Created detailed **runbooks** for common IT support requests, including password resets and peripheral connectivity troubleshooting, reducing average resolution time by 15%.
- Assisted in the configuration and testing of new **Microsoft 365** features for end-users, providing initial support and gathering feedback.
- Implemented a proactive maintenance schedule for office IT equipment, including regular checks on printers and network access points.
