PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Produced detailed fabrication drawings in accordance with specified CE execution classes for structural steel components, ensuring adherence to project specifications.
- Generated precise cutting lists and material lists for fixings and fittings, collaborating with the purchasing department to ensure timely procurement for manufacturing.
- Developed site erection drawings and communicated critical project updates to the Project Manager throughout the duration of multiple construction projects.
- Evaluated design team's drawings, identifying discrepancies and issuing RFIs to the structural engineer to resolve design ambiguities and ensure constructability.
- Maintained a comprehensive drawing register and liaised with the design team to manage revisions and ensure all project documentation was current and accessible.
- Managed drawing office documentation and filing systems according to company procedures and CE certification requirements, ensuring regulatory compliance.
- Containerized the feature-pipeline services with Docker and deployed them to a Kubernetes cluster (EKS), wiring up Helm chart configuration and basic resource limits for predictable rollout.

SKILLS

Software – Tekla Structures, AutoCAD, 3D modelling software, Microsoft Office

Engineering – Steel detailing, Fabrication drawings, Cutting lists, Material lists, Structural engineering, Manufacturing processes, CE execution classes

Project Management – Drawing register, RFIs, Document management systems, Site erection drawings, Project documentation

Soft Skills – Prioritisation, Attention to detail, Problem solving, Independent work, Team collaboration, Communication skills

Cloud & DevOps – Docker, Kubernetes, AWS (EC2/S3/Lambda/CloudWatch)

Programming – Java Spring Boot, Python, SQL

PROJECTS

Structural Steel Detailing for Enterprise Balcony Systems

- Generated detailed 3D models and fabrication drawings for complex balcony structures using Tekla Structures, ensuring compliance with stringent CE execution class requirements.
- Created comprehensive material lists for structural steel, fixings, and fittings, directly supporting the purchasing department's procurement processes for 5+ distinct projects.
- Collaborated with structural engineers to resolve design queries and incorporated RFI feedback into updated drawings, reducing rework by approximately 15% on critical path items.

Automated Production Reporting and Documentation System

- Developed Python scripts to automate the generation of daily production reports and update the drawing register, reducing manual effort by 5 hours per week.
- Engineered a system to parse and extract key information from design documents, automatically populating material requirement fields for the purchasing department.
- Designed and implemented a structured documentation filing system mirroring CE certification standards, improving audit readiness and information retrieval times for the drawing office.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
