PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered user accounts, licenses, and permissions for **Microsoft 365** services including Teams, SharePoint, and Exchange, supporting over 150 organizational users.
- Provided direct **end-user IT support** for hardware, software, and access issues, resolving an average of 15 tickets daily for staff across multiple departments.
- Managed the onboarding and offboarding processes for new and departing employees, configuring accounts, permissions, and company-issued devices.
- Maintained and supported organizational laptops, printers, and other IT equipment, performing regular diagnostics and updates to ensure optimal performance.
- Troubleshoot complex system issues and escalated to external IT providers when necessary, ensuring timely resolution and minimal disruption to operations.
- Developed and maintained **Power BI dashboards** to visualize organizational data, assisting teams in structuring data for improved reporting and decision-making.
- Implemented and maintained IT security measures, including **user access controls** and multi-factor authentication (MFA), to safeguard sensitive organizational data.

SKILLS

Cloud Platforms – Microsoft 365, Exchange, SharePoint, Teams, Power BI, Power Automate, Azure

IT Support & Operations – End-user Support, Hardware Troubleshooting, Software Installation, Access Management, Device Management, IT Security, Data Protection, GDPR Compliance, Backups, Disaster Recovery

System Administration – User Account Management, License Management, Permissions Configuration, Onboarding/Offboarding, Vendor Management

Reporting & Data Analysis – Data Structuring, Dashboard Development, Reporting Support, Data Quality Improvement

Networking & Infrastructure – Laptops, Printers, Network Troubleshooting

Programming & Scripting – Python, SQL

PROJECTS

Microsoft 365 Administration and Support Enhancement

- Configured and managed **Microsoft 365** tenant settings to enhance security and compliance for a user base of 150+ individuals.
- Automated user onboarding and offboarding workflows using **Power Automate**, reducing manual processing time by approximately 40% per employee.
- Developed standardized troubleshooting guides for common hardware and software issues, improving first-contact resolution rates for IT support tickets by 22%.

Internal Data Dashboard for Operational Insights

- Designed and built interactive **Power BI dashboards** to present key operational metrics, enabling better visibility into system performance and user activity.
- Structured and cleaned data from disparate sources using **Power Query**, ensuring data consistency and accuracy for reporting purposes.
- Collaborated with internal teams to gather requirements for reporting needs, translating business questions into actionable data visualizations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS
