PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed Master Data updates within the **Finance ERP system (Business Central)**, ensuring data integrity for accounting operations.
- Developed and refined solutions within **Business Central** to translate accounting requirements into functional system configurations for the finance team.
- Established and configured **CSV Ports (interfaces)** to facilitate data exchange between the finance system and external applications.
- Supported the successful roll-out of finance system enhancements and updates to **new subsidiaries** across international markets.
- Documented and optimized **accounting processes and system landscapes**, including interconnected applications and interfaces, for improved efficiency.
- Provided system-level support for **audit and monthly group reporting** activities, ensuring data accuracy and accessibility.
- Containerized key finance system integration services using **Docker**, deploying them to a cloud environment for enhanced scalability and reliability.

SKILLS

ERP System – Microsoft Dynamics 365 Business Central, Master Data Management, Finance ERP

Accounting & Finance – Accounting Processes, Group Reporting, Audit Support, Dunning

System Integration – CSV Ports, Interface Configuration, System Landscapes, Application Integration

Project Management – Roll-out Projects, Process Documentation, IT Project Management, Stakeholder Management

Development & Debugging – Debugging, Solution Development, System Support, Problem Solving

Cloud & Containerization – Docker, Cloud Deployment, AWS EC2, AWS S3

PROJECTS

Business Central Finance System Enhancement (HCL Technologies)

- Enhanced the **Business Central** ERP system for a financial services client by developing custom modules to streamline transaction processing workflows.
- Implemented automated data validation checks for imported financial data, reducing manual correction efforts by approximately **30%**.
- Collaborated with business analysts and accounting teams to gather requirements, conduct UAT, and provide post-implementation support for system updates.

Automated Reporting Interface for Financial Operations (HCL Technologies)

- Developed a Python-based ETL process to extract, transform, and load financial transaction data from multiple sources into a central reporting database.
- Configured scheduled jobs using **Cron** and shell scripting to automate daily report generation, delivering performance metrics to operational teams.
- Integrated the reporting solution with **PostgreSQL**, ensuring efficient data retrieval for downstream analytics and dashboarding tools.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
