PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **SAGE** data entry and purchase order creation for a team of 15 procurement specialists, ensuring accuracy for over **500 POs per month**.
- Compiled and produced comprehensive **monthly spend reports** using intermediate **Excel**, analyzing expenditure patterns across **three key vendor categories**.
- Monitored **vendor performance** by tracking delivery times and quality metrics, identifying and resolving discrepancies that impacted project timelines for **4 ongoing infrastructure projects**.
- Assisted procurement department with general administrative tasks, including **coordinating travel arrangements** and hotel bookings for team members attending industry conferences.
- Inputted **Proof of Delivery (POD) information** into **SAGE**, maintaining accurate digital records and facilitating timely payment processing for a high volume of goods.
- Collaborated with operations teams to identify and resolve issues within **procurement workflows**, escalating complex discrepancies to management to ensure smooth project execution.
- Contributed to the setup of **new vendor accounts** by gathering required documentation and ensuring compliance with internal onboarding procedures.

SKILLS

Procurement & Operations – Purchase Order Management, Vendor Performance Monitoring, Spend Analysis, Data Entry, Issue Resolution, Vendor Account Setup

ERP Systems – SAGE

Data Analysis & Reporting – Microsoft Excel (Intermediate), Spend Reports, Data Manipulation, Data Validation

Administrative Support – Travel Coordination, Hotel Bookings, Document Management, Record Keeping

Core Competencies – Attention to Detail, Communication Skills, Problem-Solving, Ownership & Accountability, Professionalism

PROJECTS

Procurement Operations Enhancement (HCL Technologies)

- Developed automated Python scripts to process and validate incoming Proof of Delivery (POD) documents, reducing manual data entry time by **40%**.
- Designed and implemented a dashboard using basic data visualization techniques to track vendor performance against key metrics (on-time delivery, quality), highlighting areas for improvement.
- Streamlined the process for setting up new vendor accounts by creating standardized checklists and templates, decreasing onboarding time by approximately **2 days** per vendor.

Spend Analytics Dashboard (MSc Data Analytics)

- Built an interactive **Power BI** dashboard to visualize monthly expenditure across different departments and project types for a simulated enterprise environment.
- Wrote complex **DAX** measures to calculate variance against budget and identify top spending categories, presenting findings to simulated business stakeholders.
- Performed data cleaning and transformation using **Power Query** on diverse datasets to ensure data integrity for the analytics project.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
