PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for cross-service data exchange, incorporating request validation and circuit-breaker patterns.
- Developed and maintained **Hibernate** entities and performed complex **SQL** queries against relational databases for data integration and retrieval.
- Authored **JUnit** tests and utilized **Mockito** for unit testing Java components, ensuring code quality and maintainability within a **Maven** project structure.
- Troubleshoot and resolved **production issues** for enterprise applications, analyzing logs in **Splunk** and **CloudWatch** to meet strict SLAs and conduct root cause analysis.
- Developed **Python scripts** to automate data ingestion and transformation processes, improving ETL efficiency for scheduled reporting tasks.
- Containerized backend applications using **Docker** and managed deployments on **AWS EC2** instances, ensuring consistent environments across development and production.
- Collaborated with cross-functional teams to manage project schedules and timelines, participating in **Agile ceremonies** and providing essential business support.

SKILLS

Languages – Java, Python, SQL, Shell, R

Frameworks/Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, RStudio

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java components into a modular **Spring Boot** microservices architecture, improving system scalability and maintainability.
- Implemented data persistence layers using **Hibernate** and JPA, optimizing **SQL** query performance for large datasets and ensuring data integrity.
- Developed comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over 85% code coverage for critical service modules.

Automated Data Pipeline for Operational Reporting (HCL Technologies)

- Designed and built an automated **Python** data pipeline to extract, transform, and load data from multiple sources into a central repository.
- Developed **SQL** scripts for data validation and aggregation, preparing datasets for weekly operational reports viewed by business stakeholders.
- Integrated the pipeline with **Jenkins** for scheduled execution and monitoring, reducing manual reporting effort by approximately 15 hours per week.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
