PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Led technical investigations for complex escalations related to **identity management** and **authentication pipeline failures** within the Ads ecosystem, reducing critical incident resolution time by **18%**.
- Acted as the primary technical engineer for **passwordless authentication** rollouts, troubleshooting and supporting the implementation of **Passkey technology** (WebAuthn/FIDO2) for enterprise clients.
- Partnered with **Product Engineering** and **Trust & Safety** teams to identify vulnerabilities in the authentication stack, routing precise bug reports and advocating for infrastructure-level fixes.
- Developed and maintained **Java Spring Boot** microservices, implementing **REST APIs** for secure data exchange and processing approximately **1,500** requests per minute.
- Designed and implemented **Hibernate** mappings and optimized **SQL queries** for a financial services dashboard, improving data retrieval performance by **22%**.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict SLAs.
- Containerized **Java applications** using **Docker** and deployed them to **AWS EC2** instances, streamlining the deployment process and reducing manual intervention by **40%**.

SKILLS

Authentication & Security Protocols – OAuth2, SAML, SSO, WebAuthn, FIDO2, Passkey

Programming Languages – Python, Java, SQL

Backend Frameworks & Technologies – Spring Boot, Hibernate, REST APIs, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Data Analysis & Databases – SQL, MySQL, PostgreSQL, Oracle, pandas, NumPy, scikit-learn, Power BI, Tableau, DAX

System & Network Analysis – System Logs, Network Traffic, API Payloads, Splunk, Dynatrace

PROJECTS

Secure Authentication Service for Enterprise Clients

- Developed a **Java Spring Boot** microservice to manage user authentication and authorization using **OAuth2**, handling over **2,000** authentication requests daily.
- Implemented token exchange mechanisms and session management, ensuring secure access to downstream services for enterprise customers.
- Integrated with **PostgreSQL** for storing user credentials and session data, with a focus on data security and integrity.

Identity and Access Management Dashboard

- Built an interactive **Power BI** dashboard to visualize IAM metrics, including failed login attempts and access policy violations, for internal stakeholders.
- Designed and implemented **DAX measures** to calculate key performance indicators for authentication security, providing insights into potential vulnerabilities.
- Extracted and transformed data from various system logs using **Power Query** to populate the dashboard, ensuring accurate and timely reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
