PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal services, handling approximately **5,000 requests per minute** during peak hours.
- Engineered **Python ETL pipelines** to process and transform data from various sources into a centralized data warehouse, supporting daily reporting operations.
- Optimized complex **SQL queries** across **PostgreSQL** and **Oracle** databases, reducing data retrieval times for critical operational reports by an average of **30%**.
- Participated in design reviews with peers and stakeholders to select appropriate technologies for new feature development, contributing to decisions on microservice architecture.
- Reviewed code developed by junior engineers, providing constructive feedback on style, accuracy, and testability to ensure adherence to best practices.
- Triage product or system issues, analyzing sources of problems and their impact on service operations and quality to resolve incidents within defined SLAs.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, managing configurations and dependencies through **Jenkins** pipelines.

SKILLS

Backend Development – Java, Spring Boot, Python, Flask, FastAPI, Node.js, NestJS, TypeScript, REST APIs, Microservices, Hibernate, JPA

Databases – SQL, PostgreSQL, MySQL, Oracle, NoSQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, CI/CD

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn, Data Modeling, Data Warehousing

Enterprise Systems – ERP Integration Support, Change Management, Agile, Scrum, Jira, Confluence

Networking – WAN, Network Protocols, Distributed Systems

PROJECTS

Distributed Systems Orchestration Platform

- Designed and implemented a **Java Spring Boot**-based control plane for managing distributed network agents, ensuring reliable communication over a wide area network.
- Developed a **REST API** layer using **JPA** and **PostgreSQL** to expose agent status and configuration data, supporting a **15%** increase in network visibility for operations teams.
- Containerized the platform components with **Docker** and orchestrated deployments using **Jenkins**, streamlining the rollout process for new agent versions.

Automated Network Diagnostic Tool

- Created a **Python**-based tool to automate network diagnostics by collecting telemetry data from distributed agents and analyzing common connectivity issues.
- Integrated **pandas** for efficient data aggregation and analysis, enabling faster identification of root causes for **~85%** of reported network anomalies.
- Developed a command-line interface for engineers to easily trigger diagnostic runs and retrieve reports, reducing manual troubleshooting time by an estimated **40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
