PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Diagnosed and resolved complex VMware workload issues on Google Cloud Platform, analyzing **tcpdumps**, **heap dumps**, and **OS statistics** to identify root causes for enterprise clients.
- Served as a subject matter expert on VMware deployments within Google Cloud, collaborating with internal **engineering** and **sales** teams to overcome technical obstacles for key accounts.
- Partnered with **Site Reliability Engineering** teams to respond to and mitigate production outages, minimizing customer impact and improving overall system stability.
- Gathered and analyzed technical troubleshooting evidence, including packet traces and operating system statistics, to diagnose and resolve **VMware deployments** on Google Cloud Platform.
- Advocated for customer issues by contributing to **Supportability Engineering** initiatives, spanning multiple product and engineering teams to enhance product quality and reduce contact rates.
- Developed and maintained **Python scripts** for automating data ingestion and ETL processes, supporting operational reporting and data validation tasks for enterprise systems.
- Managed production environments for enterprise applications, performing **SLA management** and P1/P2 incident response with tools like **Splunk** and **Dynatrace**.

SKILLS

Cloud Platforms – Google Cloud Platform, AWS

Virtualization – VMware vSphere (ESXi, vCenter), vSAN, NSX-T, HCX

Programming Languages – Python, Java, Shell

Tools & Technologies – Splunk, Dynatrace, Docker, Jenkins, Git, Jira, Linux, TCPdump, PagerDuty

Databases – PostgreSQL, MySQL, Oracle

Cloud Services – EC2, S3, Lambda, CloudWatch, vRealize Operations, vRealize Automation

PROJECTS

VMware Environment Monitoring and Automation

- Developed Python scripts to automate the collection of performance metrics and logs from **VMware environments**, integrating with **Splunk** for centralized analysis and alerting.
- Built automated diagnostic tools using shell scripting to gather system statistics, memory dumps, and network traces from **ESXi hosts**, reducing manual troubleshooting time by 40%.
- Created dashboards in **Power BI** to visualize key performance indicators and operational health of the VMware infrastructure, enabling proactive identification of potential issues for stakeholders.

Cloud Infrastructure Support Automation

- Designed and implemented automated deployment scripts for **AWS EC2 instances** and **Docker containers** using Jenkins pipelines, reducing deployment time for new environments by 30%.
- Collaborated with customer onboarding teams to develop standardized documentation and troubleshooting guides for **VMware on GCP** deployments, accelerating the integration process.
- Provided technical support and issue resolution for cloud-based enterprise applications, analyzing logs and system metrics to ensure service level agreements were met.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
