PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Served as technical lead for **Cyber Security infrastructure** initiatives within a **live 24/7** operational environment, ensuring system resilience and availability.
- Developed and implemented infrastructure designs adhering to **industry best-practice** for scalability, resilience, and security, directly supporting critical business functions.
- Managed the **vulnerability assessment and security patch management** programmes, coordinating deployment schedules and verifying remediation across the Windows Server and client OS fleet.
- Implemented and tested **high-availability and disaster recovery** strategies, documenting failover procedures and recovery time objectives against strict SLAs.
- Resolved escalated technical issues from first and second line support, performing **root cause analysis** on complex infrastructure problems.
- Produced comprehensive **technical documentation** for internal and external audit purposes, detailing system configurations, security controls, and operational procedures.
- Mentored junior staff on **Windows Server administration** and ITIL process adherence, contributing to team skill enhancement and process optimisation.

SKILLS

Operating Systems – Windows Server 2019/2022/2025, Windows 11, Linux (RedHat/OEL)

Directory Services & Networking – Active Directory, Group Policy, Network Protocols

Virtualisation & Storage – VMware, Storage Technology

Automation & Scripting – Python, Ansible, REST APIs

Security & Compliance – Cyber Security Infrastructure, Vulnerability Assessment, Patch Management, ITIL

Backup & Recovery – Backup Solutions, Disaster Recovery, High-Availability

Monitoring & Support – Infrastructure Performance Monitoring, SLA Management, Technical Support

PROJECTS

Secure Infrastructure Deployment for Financial Operations

- Designed and deployed a hardened Windows Server infrastructure for a **payments operations dashboard**, integrating **Active Directory** for access control and policy enforcement.
- Implemented robust monitoring using **Splunk** and **Dynatrace** to track system health and performance against agreed SLAs, reducing critical alerts by **18%**.
- Developed Python scripts to automate routine system health checks and configuration validation, ensuring adherence to **security best-practice** and regulatory requirements.

Enterprise Systems Integration and Automation

- Integrated enterprise business systems, including ERP modules, via **REST APIs** and direct database connections across **PostgreSQL** and Oracle instances.
- Automated ETL processes and data validation for scheduled reporting using **Python** and **SQL**, improving data accuracy for financial reconciliation workflows.
- Managed change-control processes for system configuration updates, coordinating UAT and post-go-live support for interconnected platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
