PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **automated dashboards** for tracking key performance indicators including CAC, LTV, and ROAS across multiple marketing channels, enabling the marketing team to monitor campaign effectiveness.
- Designed and executed **A/B tests** for landing pages and ad creatives, analyzing results to identify optimization opportunities that improved conversion rates by an average of **18%**.
- Performed **audience segmentation** using RFM analysis and customer behavior patterns to support personalized marketing automation campaigns, leading to a **15% increase** in engagement metrics.
- Collaborated with Data Engineers to integrate data from various marketing platforms such as **Google Ads, Meta, and GA4** into the central Data Warehouse, ensuring data accuracy for reporting.
- Analyzed customer journeys and marketing funnels (Top, Middle, and Bottom) to provide insights into channel performance and customer touchpoints.
- Translated complex data findings into actionable recommendations for the CMO and Growth Leads, influencing budget allocation decisions based on historical performance and campaign trends.
- Containerized data analysis scripts and reporting tools using **Docker** and deployed them onto **AWS EC2** instances, improving deployment consistency and simplifying environment management.

SKILLS

BI Tools – Power BI, Tableau, Looker, Data Studio

Data Analysis & Modeling – SQL, DAX, Google Analytics 4 (GA4), Google Tag Manager (GTM), Customer Segmentation, RFM Analysis, Attribution Models, A/B Testing, Marketing Funnels

Marketing Platforms – Google Ads, Meta Ads, HubSpot, Facebook Ads, LinkedIn Ads

Data Engineering & ETL – Power Query, Data Warehousing, Cross-Channel Integration

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Programming & Scripting – Python, R, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Marketing Performance Dashboard Suite

- Developed a suite of **Power BI dashboards** to visualize key marketing KPIs including CAC, LTV, ROAS, and conversion rates for paid social, SEM, and email campaigns.
- Implemented **DAX measures** and complex data models in Power BI to enable interactive exploration of campaign performance and customer acquisition funnels.
- Collaborated with marketing stakeholders to gather requirements and refine dashboard visualizations, ensuring alignment with strategic growth objectives.

Customer Churn Prediction Model

- Engineered Python scripts using **pandas** and **scikit-learn** to extract features from customer transaction data and analyze behavior patterns, including recency, frequency, and monetary value.
- Trained a **logistic regression model** on a dataset of 50,000 customer records to predict churn probability, achieving **0.78 AUC** on held-out validation data.
- Wrote SQL queries against a **PostgreSQL** database to extract and transform customer data for feature engineering and model training.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
