PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Architected and built scalable UIs using **React** and **TypeScript**, incorporating modern state management patterns to ensure high performance and accessibility for over **10 million** monthly users.
- Developed and maintained efficient **Node.js** RESTful APIs using **Express** to support frontend requirements and integrate with backend business logic, handling approximately **5,000 requests** per minute.
- Implemented features using **Tailwind CSS** and **shadcn/ui**, ensuring design consistency and rapid development of beautiful, functional user interfaces across the platform.
- Collaborated with cross-functional teams to integrate AI-driven features into the frontend, enhancing the customer journey by enabling intelligent workflows.
- Drove technical excellence by implementing **Test-Driven Development (TDD)** with **Jest** and **React Testing Library**, resulting in a **20% reduction** in production bugs for new feature releases.
- Conducted peer code reviews to maintain high code quality and foster a culture of clean, maintainable code within the engineering team.
- Containerized backend services using **Docker** and deployed them to a managed Kubernetes environment on **GCP**, streamlining local development and ensuring consistency with production deployments.

SKILLS

Frontend – React, TypeScript, Tailwind CSS, shadcn/ui, State Management, Accessibility, Jest, React Testing Library

Backend – Node.js, Express, RESTful APIs, OpenAPI, Swagger, NestJS

AI/ML – AI Integration, LLMs

DevOps – Docker, GCP, Kubernetes, CI/CD

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

AI-Enhanced Travel Connectivity Platform

- Developed a customer-facing web application using **React** and **TypeScript** to provide eSIM data plans for international travellers, directly impacting over **500,000** users globally.
- Integrated a third-party AI service via **Node.js** REST APIs to offer personalized travel connectivity recommendations based on user destination and duration, improving conversion rates by **15%**.
- Implemented comprehensive unit and integration tests using **Jest**, achieving over **90%** code coverage for critical user-facing features and reducing post-deployment issues.

Internal Developer Productivity Tooling

- Built a CLI tool in **Python** to automate the generation of common API documentation structures using **OpenAPI (Swagger)** specifications, saving the development team an estimated **10 hours** per week.
- Containerized the tooling application with **Docker** for easy distribution and setup across developer machines, ensuring a consistent development environment.
- Designed and implemented a basic CI pipeline using **Jenkins** to automatically test and package new versions of the developer tooling.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
