PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided desk-side support for **Windows** and **macOS** workstations, resolving hardware and software issues for an end-user base of approximately **250 employees**.
- Managed incident tickets using **Jira Service Desk**, ensuring daily updates and aiming for resolution within defined SLAs in a high-pressure environment.
- Configured and deployed new workstation hardware and software, including peripherals like **printers** and **scanners**, for new hires and existing staff.
- Coordinated warranty repairs with **hardware vendors**, managing the asset recovery process for retired equipment.
- Supported **meeting room environments** and video conferencing systems, troubleshooting connectivity and hardware issues to ensure seamless collaboration.
- Performed **end-user data backup and restoration**, safeguarding critical information and ensuring business continuity.
- Assisted the **Sales department** by answering technical questions related to workstation capabilities and configurations.

SKILLS

Operating Systems – Windows, macOS, Linux

Hardware Support – PC, Laptop, Printers, Scanners, Mobile Devices (iPad, iPhone)

Software & Applications – Application Installation, Configuration, Troubleshooting, Microsoft 365

Support Tools – Jira Service Desk, Remote Desktop Tools, Ticketing Systems

Networking & Peripherals – Printers, Scanners, Video Conferencing

Asset Management – Workstation Asset Recovery, Warranty Repair Coordination

PROJECTS

Desktop Support Enhancement Initiative (HCL Technologies)

- Streamlined the process for **new hire workstation setup** by creating standardized build images and deployment checklists, reducing setup time by an average of **30%**.
- Developed a shell script for automated **printer driver deployment** across a segment of the user base, resolving common installation conflicts.
- Contributed to the creation of an internal knowledge base for common **hardware troubleshooting** steps, accessible to the wider support team.

End-User Device Management & Restoration (MSc Project)

- Simulated and documented procedures for **end-user data backup and restoration** on various device types, including Windows PCs and Apple MAC devices.
- Configured and tested **mobile device support** scenarios for common enterprise applications on iOS devices.
- Analyzed common **PC and laptop application issues** encountered by end-users and cataloged their resolutions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS
